Dear Ladies and Gentlemen,

You are hereby receiving the Volmary Young Plants & Seeds Catalogue for Spring 2026.

The product range includes the best varieties and has been expanded to include many attractive innovations. All varieties have proven their excellence in an international comparison.

With 'Sunny Susy®' Volmary offers you a world-leading Thunbergiaseries. Thanks to intensive in-house cultivation, the new '**Sunny Susy® White Wedding**' impresses with large, elegant flowers in pure white without an eye. Its elegant appearance is particularly suitable for modern plantings.

With 'Lubega® XL', you get impressive solitaire dahlias with large, double flowers. They are ideal for the production of 3–5 litre containers for sales from May to July. Also discover the attractive new varieties '**Lubega® XL Cherry Sparkle**' with brightly speckled cherry-pink flowers and '**Lubega® XL Maracuya**' which, with their exotic-looking passion fruit-coloured flowers, attract everyone's attention.

The miniature butterfly bush 'Summer Bird®' is distinguished by its stable, compact growth. What's new is '**Summer Bird® Mounding Magenta**' with its flat, sprawling growth and bright magenta-coloured flowers that magically attract butterflies and bees.

Climate change is making summers in Central Europe warmer and drier, which opens up new opportunities for the field cultivation of vegetables. While **hokkaido** and **butternut pumpkins** have already become standard, **sweet potatoes**, **watermelons**, **sugar melons** and **peanuts** still have a lot of potential.

Especially with field crops that need warmth, such as **pumpkins**, **courgettes** and **melons**, an optimal start to cultivation is crucial. Our new **84-type paper pot** makes it easier to remove young, freshly rooted plants from the tray. The airy, warm soil ensures good moisture management and rapid growth. The protected, warm pre-culture ensures the start to cultivation, which is crucial for higher-priced varieties.

In production, the new **264-type reusable tray**, which is compatible with potting robots, also impresses with its excellent lifting quality and relatively high substrate volume. After potting, the sustainable trays can be stacked in a space-saving manner.

More and more gardeners and marketers are recognising how valuable and effective targeted marketing is. In this way, good results are achieved through partnership and cooperation. Our marketing convinces with the product, sales, and also online and creates a **comprehensive Volmary® world of brand experience** for emotional and colourful moments.

Further to ordering seeds and young plants around the clock, **Volmary's online portal** offers you many other benefits such as current information on **availability** and **marketing materials** for your sale.

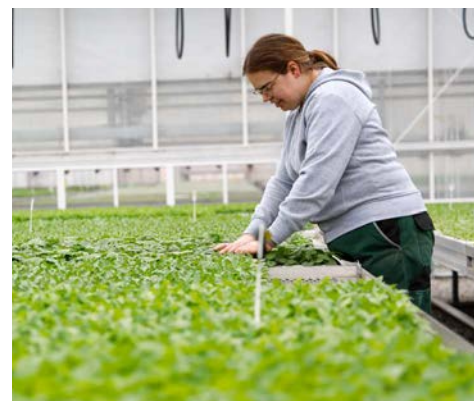

Drive your success with the **best products and targeted information**! Our international connections to science, breeders, young plant producers, production gardeners, marketers and media offer you leading breeding and first-hand knowledge. Use your advantage with Volmary. Our experienced **employees in the field and in the office** can provide you with trustworthy advice on issues relating to varieties and cultivates.

With kind regards

Management and staff

Volmary® Young plant production

VOLMARY® – YOUR INDEPENDENT PARTNER

Volmary GmbH is an independent, medium-sized **family business** in horticulture and a leading European plant-breeding company. As a strong and innovative partner in commercial horticulture, Volmary® stands by your side with developed plant brand concepts for the specialist garden trade and food retail trade.

Volmary® is internationally recognised in the following areas:

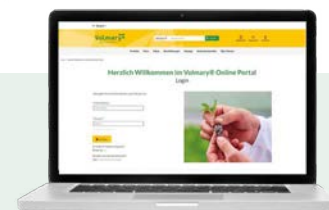

- Production and distribution of vegetatively and generatively propagated **young plants** of **flowers, vegetables, herbs, and fruit**
- Propagation and distribution of **seeds** (flower and vegetable seeds)
- Distribution of **vegetable bulbs**
- **Classical plant breeding** in the field of flowers and vegetables
- Control of the **plant brand concepts Volmary® Plants** and **Soul Plants®**

What drives us

As plant professionals, we have been known for high product quality and expertise in seeds and young plants for flowers, vegetables, fruit and herbs for 100 years. We support our customers through our partnership-based approach, with an innovative product range and individual service. In doing so, we are driven by the goal of contributing to a positive attitude towards life with plants, bright colours, joy and pleasure.

Exclusive varieties

New and particularly powerful varieties are paramount for offering your customers a modern and high-quality assortment of flowers and vegetables. Volmary®'s Plant Breeding and Information Centre in Münster offers great opportunities to become familiar with new varieties. Exact, practice-relevant cultural recommendations emerge from intensive varietal tests. All new varieties undergo multi-annual tests in Volmary® greenhouses and on their own Volmary® test fields, being also tested for outdoor and bed suitability

Simply order young plants and seeds online

As a Volmary customer, you have the exclusive option of using Volmary Online Portal.

Benefits at a glance

- Order seeds and young plants around the clock
- View current availabilities at any time
- Current product and variety information
- Direct query of prices
- Download and view catalogues
- Insight into your order history – direct and easy re-ordering
- Mobile access, from any location, even directly from your greenhouse

Start now with the Volmary Online Portal at www.volmary.com

Variety Show Dates

Several times a year, we open the doors of the Volmary® Plant Breeding and Information Centre for customers and prospects to explore the latest varieties.

ORGANIC? OF COURSE, AND NATURALLY SUSTAINABLE

thanks to resource-saving production

At Volmary, we are continuously working to further develop our production processes with the aim of handling our resources in an even more sustainable and environmentally friendly way. Our entire production chain is constantly being optimised. On the way to more **sustainability**, we at Volmary rely on various building blocks too.

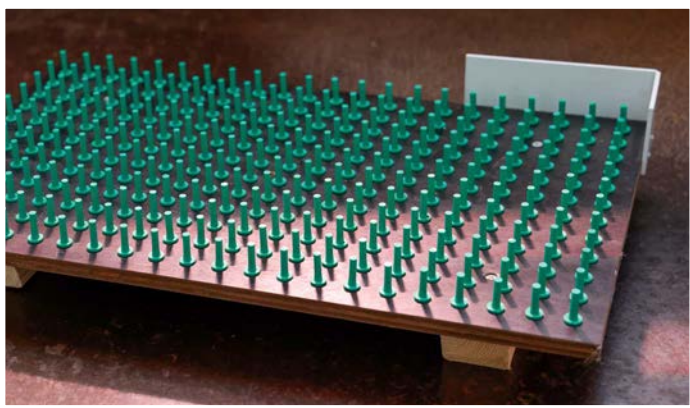

As plant cultivators, we focus on the cultivation of **more resistant or tolerant** plants as well as on climatically adapted **cold or heat-tolerant plants**. In addition, the cultivation of compact plants that do not require any or only a small amount of growth inhibitors plays a major role for us.

We use natural resources such as water, substrate, fertiliser and energy as sparingly as possible in our production. **Integrated plant protection** and the use of beneficial organisms is standard practice for us. The use of **Multikraft plant fortifiers** makes our plants more resistant and robust.

Volmary offers an **extensive ORGANIC range** of vegetables, herbs and fruit and, by arrangement, also organic flowers. You will receive these in the form of organic young plants, unrooted organic cuttings (URC) and organic seeds. Thanks to our ORGANIC products, you too can produce sustainably.

The new **264-type reusable tray** was specially developed for efficient and sustainable plant production. It is compatible with picking robots and convinces with an improved lifting quality. Thanks to the relatively high substrate volume, the plants benefit from better growth conditions. The compatible software programs and actual dimensions for TTA and Visser machines allow for seamless integration into existing production processes. Furthermore, the trays can be stacked in a space-saving manner after potting, so that they only take up a small freight volume on the way back to Volmary – this is another way in which we contribute to sustainability through multiple use.

Lifting plate

264-type reusable tray

HIGH-QUALITY CUTTINGS

directly from our certified mother plant locations.

In addition to its rooted seedlings in various tray sizes, Volmary offers a wide range of unrooted cuttings (URCs) for specialised production companies. Larger undertakings, especially, will appreciate the possibility of obtaining unrooted cuttings directly from our mother plant farms, with the appropriate expertise and free capacities. Due to the standardised preparation and uniformity of the cuttings, almost all varieties are also ideal for the use of cutting robots.

Sustainability has a tradition in our family business. That is why we are constantly optimising our production processes to ensure sustainable and responsible use of resources. We are also committed to the well-being of our staff and the protection of the environment. Our international production sites are MPS-certified, which guarantees you the highest-quality raw material as a customer. International sustainability standards at various locations confirm our successes in sustainable business.

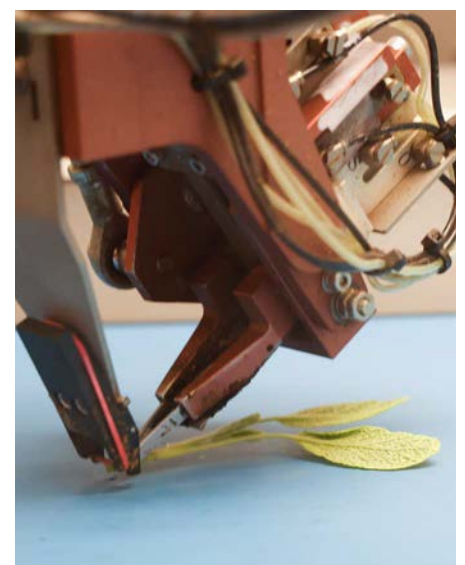

This is also shown by the Fairtrade certification of our mother plant location in Kenya. Fairtrade promotes better working and living conditions in the certified mother plant farms as well as environmental protection. Thanks to the sale of Fairtrade cuttings, Fairtrade producers benefit from fairer trading conditions and can achieve improvements in social and environmental aspects. Strict Fairtrade standards improve social sustainability and protect the environment in the countries of cultivation.

What's more, as the Volmary Group, we also have ORGANIC certification as well as the GLOBALG.A.P. certification.

OUR CERTIFICATIONS

VOLMARY® PLANT BRAND CONCEPT

Convincing strategies create added value for production gardeners, the entire retail chain and end consumers alike.

The Volmary® plant brand concept is aimed at producers who market their goods through garden centres. This concept represents the values of the family company Volmary. The plants are cultivated under licence by selected horticultural companies and marketed through garden centres. Quality is the decisive factor: only the best varieties from professional horticulture – which guarantee success – are part of the Volmary® product range. The sales promotion of the Volmary® plant world is underpinned by versatile marketing. In this way, you benefit from a strong sales brand that captivates, inspires and informs. Win new customers with individual sales concepts and special campaigns and improve your sales channels.

- Commercially successful varieties – variety that's fun!
- Year-round marketing programme
- Numerous sales promotion materials
- Effective multi-channel marketing
- Creative design on all important social media channels
- Volmary® garden blogger meetings with intensive dialogue with content creators in the social media garden area
- Editorial contributions in leading hobby gardener magazines, on radio and television and effective Volmary® print advertising in renowned hobby gardener magazines are aimed directly at target groups

Benefit from the many advantages of the Volmary® plant world.

Volmary's Calibrachoa series combine very early flowering, well-branched growth and breaking resistance of the shoots. Their long flower opening delights end consumers and retailers alike.

The different series are specially composed to meet varying vigour requirements: from very compact-growing series with low inhibitor requirements for efficient and rational cultivation, to stronger-growing series for beautiful premium products. You will find the right varieties for your production in the Volmary range.

TAGETES
MARIGOLDS FOR FIGHTING NEMATODES ASTERACEAE

1000				
6-10*/15-20**	V-VII	15-18	10-17	-

*) Early sowing: 6-10 kg/ha

**) Late sowing: 15-20 kg/ha

Nematodes have become a yield-reducing or even a total failure problem in some areas of horticulture. One way to combat these harmful organisms in the soil is to sow Tagetes before the start of cultivation.

478600 Baristo® Giga Blue

478615 Baristo® Giga Rose

Type					
Nema	-	18-22	OUT	-	-
Single Gold	-	18-22	OUT	-	-

NEMA MIX

- A vigorous variety with good ground coverage and branching
- Good formation of crop material and root mass
- Good weed control in practice
- Semi-double flowers in predominantly red shades, height: approx. 60 cm

478805 Nema Mix SEED
Mix

478605 Baristo® Giga Lavender

478620 Baristo® Giga White

478805 Nema Mix

SINGLE GOLD

- An extensively tested, particularly powerful patula hybrid that is highly effective in fighting nematodes
- Quick plant development and a well-branched, higher habit with fast covering of the ground
- The dry mass production is about 100% higher than standard varieties
- Ensures an effective green manure, height: approx. 70 cm

478810 Single Gold
Yellow

ATHYRIUM NIPONICUM

JAPANESE PAINTED FERN WOODSIACEAE

Type					
Metallicum	10-13	10-12	14-18	-	-

METALLICUM

- Hardy fern with silvery-green leaves
- Contrasting pink-violet midrib
- Ideal for acidic, moist locations in the shade and as a floral accessory

499624 Metallicum 104
Silver / green / pink

CHEILANTHES LANOSA

HAIRY LIPFERN ADIANTACEAE

Type					
Cimbra	10-13	10-12	14-18	-	-

CIMBRA

- Hardy fern with downy, pinnate foliage
- Tolerates sunny to semi-shady locations with sufficient soil moisture
- Ideal for low-maintenance plantings

499634 Cimbra 104
Mint green

DRYOPTERIS AFFINIS

GOLDEN-SCALED MALE FERN DRYOPTERIDACEAE

Type					
Crispa	10-13	12-14	14-18	-	-

CRISPA

- Largely evergreen, compact growing fern
- Pinnate, dark green fronds
- Good area coverage due to runner formation, but not sprawling
- Also tolerates sunny locations with sufficient soil moisture

499642 Crispa 104
Green

BLECHNUM SPICANT

RIBBED FERN BLECHNACEAE

Type					
Stripetti	12-15	10-12	14-18	-	-

STRIPETTI

- Easy-care striped fern for shady, acidic and moist locations
- Upright, leathery fronds with conspicuous spore hymenia
- Evergreen, not sprawling

499630 Stripetti 104
Green

CYRTOMIUM FORTUNEI

HOLLY FERN DRYOPTERIDACEAE

Type					
Clivicola	10-13	10-12	14-18	-	-

CLIVICOLA

- Overhanging, coarsely pinnate fronds with a broad, shiny spread
- Strikingly fresh green even in winter, ideal for autumn planting
- Good winter hardiness, low soil requirements

499638 Clivicola 104
Mint green

DRYOPTERIS ERYTHROSORA

JAPANESE SHIELD FERN DRYOPTERIDACEAE

Type					
Autumn	10-13	8-10	14-18	-	-

AUTUMN

- Attractive bronze colouring of the fresh shoots
- Foliage remains green into winter, ideal for mixed autumn plantings
- Robust variety suitable for partial shade, also suitable for sunny locations if the soil is sufficiently moist

499700 Mexica

499738 Phyllis

POLYPODIUM VULGARE

COMMON POLYPODY POLYPODIACEAE

Type					
Poldy	12-15	10-12	14-18	-	-

POLDY

- Evergreen spotted fern with dark green, leathery foliage
- Flat spreading growth, ground-covering carpets due to runner formation
- Very hardy and drought tolerant
- Ideal under trees, for rock gardens and walls, also in shady areas
- Height of growth approx. 30 cm

499742 Poldy 104
Green

POLYSTICHUM SETIFERUM

SOFT SHIELD FERN DRYOPTERIDACEAE

Type					
Herrenhausen	12-15	10-12	14-18	-	-

HERRENHAUSEN

- Arching shoots with a pronounced midrib
- Multi-pinnate, rich green fronds
- Easy to care for and long-lived
- Evergreen, graceful fern for semi-shady locations

499766 Herrenhausen 104
Rich green

499742 Poldy

499766 Herrenhausen

POLYSTICHUM TSUS-SIMENSE

KOREAN ROCK FERN DRYOPTERIDACEAE

Type					
Roca	10-13	12-14	14-18	-	-

ROCA

- Low-growing fern for shady locations
- A dark midrib adorns the fronds
- Evergreen and hardy in sheltered locations

499780 Roca 104
Green

499780 Roca

ACHILLEA X FILIPENDULINA
CORONATION GOLD YARROW ASTERACEAE

Type				
Summer Gold	13-15/19-23	60	VI-VII	(x)/x40

SUMMER GOLD

- Low growing selection with short, vigorous, densely filled flowers
- Ideal for containers and smaller beds

Princess Nadia	10-13	15	IV-V	-
Sugar Plum	11-13	15	IV-V	-
Feathered Friends	11-13	15	IV-V	-

ATROPURPUREA

- Ground cover with mahogany brown, dense foliage
- Blue flowers on short, stable peduncles
- Also good for plantings in autumn

401600 Atropurplea 84 | URC
Blue, foliage mahogany brown

BLACK SCALLOP

- Shiny, dense foliage with an intense black brown colour
- Medium blue flowers
- Very good hardiness and heat tolerance
- Mildew resistant, an ideal, robust ground cover

401610 Black Scallop 84 | URC
Blue, foliage black-brown

BURGUNDY GLOW

- Carmine pink, white and grey/green patterned foliage
- Interesting as a decorative perennial or colourful ground cover

401620 Burgundy Glow 84 | URC
Blue, foliage tricolour

MIDNIGHT MYSTERY

- Large, pink flowers on short, sturdy stems
- Dark brown, glossy leaf
- Strong, flat-spherical growth
- A plant with attractive, glossy leaves and structure for autumn sales

401631 Midnight Mystery 84 | URC
Pink

MINI MAHOGANY

- Ground cover with narrow, dark brown foliage and very good hardiness
- Very flat, dense growth habit, easy cultivation
- Early, medium blue flowers

401630 Mini Mahogany 84 | URC
Blue, foliage dark brown

PRINCESS NADIA

- The narrow, colourfully patterned foliage forms a strong contrast to the attractive, blue flowers
- Very good winter hardiness
- Very flat, dense growth, easy to cultivate
- Also suitable as a potted plant for solitary use

401635 Princess Nadia 84 | URC
Blue, foliage tricolour

SUGAR PLUM

- Very healthy, pink, green and cream white coloured foliage
- Very good hardiness, tolerates heat and sun
- Resistant to mildew, an ideal, robust ground cover

401640 Sugar Plum 84 | URC
Blue, foliage pink

Spring product range 2026

Varieties for selling as foliage plants

DELTA DAWN

- Lime green leaf with red-brown veins
- Caramel-coloured winter colour
- Flat, spherical, vigorous growth
- Greenish buds, white flowers, height approx. 35 cm

449033 Delta Dawn 84
NEW Golden yellow, veined in red-brown

ELECTRA

- Intense red venation on golden yellow foliage that later turns ochre yellow
- Cream white flowers on short stems
- Compact plants, ideal for pot cultivation

449035 Electra 84
Golden yellow, veined in red

FIRE ALARM

- Bright, copper-red leaf colour in winter and spring
- Medium-strong growth with leathery leaves
- Pink buds, white flowers, height approx. 35 cm

449039 Fire Alarm 84
NEW Copper red

FOREVER PURPLE

- Silvery, gleaming, violet foliage throughout the entire year
- Flat, round plant structure with little flower formation
- Robust and reliable growth
- A special colour for floristic arrangements in pink and violet

449042 Forever Purple 84
Violet / silver

FOREVER RED

- Intensely bright, copper red leaves with a slight curl
- Robust and healthy, vigorous habit
- Little formation of flowers in the first year, ideal as a structure plant in autumn
- The light pink flowers in the following year form a pleasant contrast

449043 Forever Red 84
Copper red

LIME MARMALADE

- Lime green, slightly wavy foliage
- Vigorous, healthy habit with comparatively good tolerance to sunlight

449055 Lime Marmalade 84
Lime green

MARMALADE®

- Wavy, bronze-coloured foliage with a purple pink bottom side
- Very robust, ideal for sun and shade as well as for mixed autumn and spring plantings

449065 Marmalade® 84
Caramel colours

MIDNIGHT ROSE®

- Black / brown foliage with pink speckles
- Cream-coloured flowers
- Semi-spherical, compact habit
- Suitable for sunny and shady locations

449075 Midnight Rose® 84
Black-brown, mottled pink

OBSIDIAN®

- Smooth, black / brown foliage that does not fade in the sun
- Very robust and reliable cultivation
- Suitable for sunny and shady locations

449080 Obsidian® 84
Black / brown

PEACH FLAMBÉ®

- The large, fiery red-veined foliage changes in the winter to purple red
- Attractive play of colours during the entire year
- Medium strong habit, ideal for robust potted plants
- Suitable for sunny and partially shady locations

449095 Peach Flambé® 84
Red, veined

VELVET NIGHT®

- Smooth, silvery foliage with pink venation
- Vigorous, semi-round habit
- Less flowering during summer cultivation, ideal for use as an ornamental plant

449105 Velvet Night® 84
Silver

449033 Delta Dawn

449035 Electra

Spring product range 2026

Varieties for selling with flowers

BLONDIE IN LIME

- The sister variety to 'Blondie' with lime green foliage and cream yellow flowers
- Similar growth characteristics

449017 Blondie in Lime 84
Lime green / cream yellow flowers

CHERRY COLA

- Warm, bright, vermillion flowers on short, strong stems
- Bronze-coloured foliage that is presentable in the winter
- Continuous flowering until late summer

449023 Cherry Cola 84
Brown / vermillion flowers

FIRE CHIEF

- Medium strong Heuchera with a rich summer bloom of pinkish white flowers
- Wine red to bronze-coloured foliage
- For sunny to shady locations

449040 Fire Chief 84
Wine red / bronze

MILAN

- Continuous bloomer with coral pink flowers on sturdy stems
- Veined, silvery summer foliage with brownish winter colouration
- An attractive plant for growing in containers and for sales of flowering plants

449077 Milan 84
Silver brown / pink flowers

PARIS®

- Green foliage with silver markings
- The long-lasting, crimson pink flowers appear constantly from May until the frost
- The robust stems are suitable for cutting

449090 Paris® 84
Green / crimson pink flowers

RUBY TUESDAY

- Intense, shining, chestnut-brown foliage with a silvery pattern and an attractive red colour in winter
- Harmonious plant structure thanks to a large number of smaller, strongly wavy leaves
- Rich thrust of sturdy pedicels with attractive, pink buds and white flowers

449102 Ruby Tuesday 84
Wine red/white blossom

SHANGHAI

- Violet-coloured when in bud, later silver-coloured with purple veins
- Long bloom with contrasting, white flowers
- Very robust and hardy
- An attractive variety for pots and containers for sales in early summer

449103 Shanghai 84
Violet silver / white flowers

TOKYO

- The dark red flowers form a strong contrast with the mint green, silver-veined foliage
- An attractive perennial for semi-shady locations
- Long-lasting flowering from July to the frost
- Compact growing, ideal for producing flowering potted plants

492900 Ice Dance

CAREX MUSKINGUMENSIS
PALM SEDGE CYPERACEAE

Table with 5 columns: Type, Height, Spread, Flowering time, and other characteristics for Carex muskingumensis.

BICOLOR FOUNTAIN
• Upright palm sedge with cream white/green-striped leaves
• Attractive, medium strong growing grass for smaller containers or larger pots

492925 Bicolor Fountain 77

492925 Bicolor Fountain

CAREX OSHIMENSIS
JAPANESE SEDGE CYPERACEAE

Table with 5 columns: Type, Height, Spread, Flowering time, and other characteristics for Carex oshimensis.

FEATHER FALLS®
• Overhanging, long leaves with a high-contrast, cream-white leaf margin
• Broad, spreading growth
• Good frost resistance and heat tolerance
• Attractive design element for modern pot and tub gardens

492970 Feather Falls® 77

492970 Feather Falls®

CORTADERIA SELLOANA
PAMPAS GRASS POACEAE

Table with 5 columns: Type, Height, Spread, Flowering time, and other characteristics for Cortaderia selloana.

CITARO®
• Elegant, white flower fronds
• Early bloom
• Ideally suited as a solitary plant in containers

493030 Citaro® 28

ESPERANTA®
• Low growing, robust variety with golden yellow leaf edges
• Thick, cream yellow flower fronds
• Attractive container variety for the high-quality grass assortment

493040 Esperanta® 28

EVITA®
• Compact selection that blooms simultaneously with numerous florescences

493050 Evita® 28

PUMILA
• Compact habit and stable peduncles
• Ideally suited as a solitary plant for containers

493080 Pumila 28

493050 Evita®

SILVER COMET

- The blades have richly contrasting, white stripes on the edges
- Vigorous, robust habit
- Cream white flower fronds closely above the foliage

493090 Silver Comet

84 | 180 | SEED

493265 Buddy Blue

HOLCUS MOLLIS

CREEPING SOFT-GRASS

POACEAE

Type				
Variegatus	12-15	20/30	V-VI	-

VARIEGATUS

- Striped foliage rich in contrast
- Sprouts early, ideal for sales during the bedding and balcony plant season
- Early clipping directly after the bloom ensures new shoots

493280 Variegatus

77

493280 Variegatus

Perennial grasses

IMPERATA CYLINDRICA
BLADY GRASS POACEAE

Table with 5 columns: Type, Red Baron, 12-17, 50, VI, -

RED BARON

- Ornamental grass with broad foliage that turns bright red in autumn
- For warm locations
- Hot seller in the autumn season

493300 Red Baron 28 | 77

493300 Red Baron

JUNCUS EFFUSUS
SOFT RUSH CYPERACEAE

Table with 5 columns: Multi-seed sowing, Sales in the spring, 1500/5000*, III-IV/V-VI**, 18-20, 14-21, 8-9

*) Multi-seed sowing
**) Sales in the spring

Table with 5 columns: Type, Blue Dart, 12-15, 40, VI-VIII, -
Spiralis, 12-15, 30, VI-VIII, -

BLUE DART

- Steel blue, round leaves
- Stiffly upright habit
- Very adaptable to dryness and moisture
- An attractive, easy-care structure plant for the summer and autumn

493365 Blue Dart 84 | 180 | SEED

SPIRALIS

- Corkscrew-like, twisted blades in a deep green colour
- An eye-catcher as a potted plant or for designing gardens, e.g. at water's edge and in containers, height: approx. 30 cm

493330 Spiralis 84 | 180 | SEED

493365 Blue Dart

493330 Spiralis

JUNCUS ENSIFOLIUS
SWORDLEAF RUSH CYPERACEAE

Table with 5 columns: Multi-seed sowing, Sales in the spring, 1500/5000*, III-IV/V-VI**, 18-20, 14-21, 8-9

*) Multi-seed sowing
**) Sales in the spring

Table with 5 columns: Type, Starhead, 11-13, 20/25, VI-VIII, x

STARHEAD

- Upright growing rush with flattened blades
- Dark brown inflorescences
- Ideal for pots and using in damp locations in the garden, height: approx. 25 cm

493350 Starhead 180 | SEED

493350 Starhead

KOELERIA GLAUCA
BLUE HAIR GRASS POACEAE

Single stem varieties

SUNRICH SUMMER DMR F1

- A pollen-free variety for summer cultivation
- Tolerant to downy mildew
- On long days this variety blooms earlier and stays shorter than 'Sunrich' F1, ideal for growing on very vigorous sites
- Concentrated, uniform bloom
- The flower quality is comparable to 'Sunrich Summer' F1

446355 Orange SEED
Orange

SUNRICH SUMMER F1

- Pollen-free variety for cultivating in the summer
- Under long day conditions, this variety blooms earlier and remains shorter than 'Sunrich' F1
- Particularly suitable for cultivating in the summer in very vigorous locations
- Concentrated, uniform bloom
- The flowering quality is comparable to 'Sunrich' F1

446350 Orange SEED
Orange

446355 Sunrich Summer DMR Orange F1

446350 Sunrich Summer Orange F1

SUNRICH DMR ORANGE F1

- Sunflower for cutting with resistance to downy mildew
- Pollen-free, golden orange flowers with contrast-rich, dark centres
- Stable, dense ring of petals
- Flower diameter: approx. 15 cm
- Very suitable for transporting and very durable in vases
- Ideal for outdoor cultivation

446525 Sunrich DMR Orange F1
Orange

SEED

446525 Sunrich DMR Orange F1

SUNRICH F1

- Pollen-free, day-neutral, high-performance variety with a contrast-rich centre
- Uniform start of bloom after a short cultivation time of approx. 10 weeks
- Stable, dense ring of petals
- Flower diameter: approx. 15 cm
- Very suitable for transporting and very durable in vases
- Also ideal for greenhouse cultivation in early spring and in late autumn

TIFFANY F1

- Robust cutting variety for cultivating outdoors
- Golden yellow petals and a jet-black, pollen-free centre
- Dark green, glossy foliage
- Cultivation time is approx. 1 week longer than 'Sunrich Orange' F1
- Particularly recommended for outdoor cultivation on self-cutting fields

446650 Tiffany F1
Golden yellow

SEED

FULL SUN F1

- Large, golden yellow petals and a black-brown ring without pollen
- Very robust, vigorous habit
- Particularly suited for outdoor cultivation in poorer soils
- Cultivation time is approx. 12 weeks

446660 Full Sun F1
Golden yellow

SEED

KING KONG

- A variety with impressive growth
- Ideal for competitions for the largest sunflower or for use in striking exhibition plantings
- Forms giant leaves and flowers on the up to arm-thick stems
- Provided that enough water and manure is supplied, the stable plants can reach a height of up to 4.5 m

446700 King Kong
Yellow

SEED

SCHNITTWUNDER

- A well-trying variety with single stems and a black centre
- Golden yellow ring of ray florets
- Open-pollinated variety for semi-professional outdoor cultivation

HELIANTHUS

Spring product range 2026

Branched varieties

TANJA® F1

- Pollen-free, branched variety of type 'Sonja'
- Small, upright flowers with a diameter of approx. 10 cm
- Bright, golden orange petals and a contrast-rich, very dark centre
- Ideal for using in bouquets and arrangements

446900 Tanja® F1 128 | SEED
Golden orange, small-flowered

CONCERT BELL F1

- An extraordinary sunflower with several flowers on the main shoot
- One stem is enough for a bouquet of flowers
- Stable, healthy plants with small foliage
- Golden yellow, pollen-free flowers with a diameter of approx. 10–15 cm
- Height: approx. 160 cm

446895 Concert Bell F1 SEED
Golden yellow with yellow centre

STARBURST F1

- Semi-double series with a branched habit
- Develops numerous, long lateral shoots early
- Attractive, pollen-free flowers in fresh colours

446925 Panache SEED
Golden yellow with dark centre

CLARET F1

- Intense, wine red-coloured cutting variety with little pollen
- Vigorous habit, early pruning promotes the development of high-quality side shoots
- An attractive variety for unique autumn arrangements

446990 Claret F1 SEED
Wine red

SONJA

- Bright orange flowers with a diameter of 10 cm
- Very good, medium-long cutting quality
- Very well-branched plants

447100 Sonja SEED
Golden yellow, small-flowered

GOLDRUSH F1

- Very early blooming, branched variety
- Yellow, pollen-free flowers with a dark centre and a diameter of 15 cm
- Early pruning promotes the formation of numerous solitary stems with a length of 80 cm
- Ideal for small-flowered products at the beginning of the season

446995 Goldrush F1 SEED
Golden yellow with dark centre

RING OF FIRE

- A two-coloured cutting variety with a fiery red ring around the centre of the golden yellow flowers
- The individual flowers with approx. 50 cm long stems or the entire plant with 4 to 6 flowers can be harvested

447145 Ring of Fire SEED
Fiery red, golden yellow

SORAYA

- Golden orange flowers that grow almost horizontally on the very stable stems
- Produces only little pollen
- Branched habit
- An attractive enrichment for medium late to late harvests outdoors

447165 Soraya SEED
Golden orange

VERZWEIGTE MIX

- This mixture includes different pollen-free cutting varieties with branched growth for outdoor cultivation
- For diverse sunflower bouquets in different shades of yellow and red
- Rich development of side shoots allows harvesting to take place over many weeks without interruption

Cut flower cultivation

LÄNDLICHER CHARME® (GROSSES KORN)

- Cut flower mixture of professional varieties for outdoor cultivation in the summer
- Contains English marigolds in different colours, safflowers, cosmos, small-leaved sunflowers and zinnias
- All have large seed bodies and are therefore included in the large seed mixture, height: approx. 100 cm

494500 Ländlicher Charme® (Großes Korn) SEED
Large Grain

LÄNDLICHER CHARME® (STRAUSSFÜLLER)

- This mixture provides a wide range of floristic additions over a longer period of time
- Contains plants with subtle leaf and flower colours, fragrant plants and ornamental grasses
- Plants with infructescences that can be used in late summer and autumn round off the assortment, height: approx. 100 cm

494520 Ländlicher Charme® (Straußfüller) SEED
Bouquet filler

494520 Ländlicher Charme® (Straußfüller)

LÄNDLICHER CHARME® (TROCKENBLUMEN-STRAUSS)

- Attractive cut flowers suitable for drying
- Wide range of attractive flower colours and shapes
- Ideal for cultivation for self-picking, height approx. 50-100 cm

494525 Ländlicher Charme® (Trockenblumenstrauß) SEED
Dried Flower Bouquet

494525 Ländlicher Charme® (Trockenblumenstrauß)

For parks and gardens

SOMMERBLUMEN-ZAUBER

- Colour-coordinated flower mixtures that allow a comparatively easy but effective creation of larger bouquets in harmonic colour compositions
- After only 2 months, the magnificent summer flowers begin to bloom
- Flowering lasts until autumn because of the special combination of the varieties, height: up to 120 cm

494650 Mix SEED
Large colour range

LÄNDLICHER CHARME® (KLEINES KORN)

- Cut flower mixture for outdoors that consists of professional, individual varieties
- Contains typical country flowers, e.g. stocks, snapdragons or cornflowers, particularly durable cut flowers, e.g. blueminks, asters or rudbeckia, height: approx. 100 cm

494510 Ländlicher Charme® (Kleines Korn) SEED
Small Grain

494510 Ländlicher Charme® (Kleines Korn)

494650 Sommerblumenzauber Mix

For fields and landscapes

**BLÜTENTEPPICH FÜR
BIENEN & SCHMET-
TERLINGE (NIEDRIG)**

- An annual flower mixture to promote butterflies, bumblebees, honeybees and wild bees
- Great biodiversity with a lot of pollen and nectar
- Long flowering period in a colourful palette until late summer
- Low growth, ideal as marginal strips of areas where a clear view should be maintained, height: approx. 50 cm

494660 Blütenesschicht für Bienen & Schmetterlinge (niedrig) SEED
Flower carpet for bees & butterflies

**NÜTZLINGSPARADIES,
MEHRJÄHRIG**

- A flower mixture for perennial use that blooms directly from the year of sowing
- For promoting pollinators and beneficial organisms in fruit and vegetable crops, agriculture and home gardens
- Diverse species composition that provides habitat and food for a wide variety of insects
- From the 2nd year of standing the flowering starts already in the spring and continues until late summer
- Ideal for permanent sowing at the edge of fields, height: approx. 70 cm

494676 Nützlingsparadies, mehrjährig SEED
Beneficial paradise, perennial

494670 Mehrjährige Blumenmischung für Bienen & Wildbienen

**MEHRJÄHRIGE BLU-
MENMISCHUNG FÜR
BIENEN & WILDBIENEN**

- A flower mixture for perennial use that blooms already in the year of sowing
- Very wide variety of species, specially adapted to the needs of bees, wild bees and bumble bees
- Offers a high supply of pollen, nectar and nesting material for wild bees
- Ideal for promoting pollinating insects in fruit production, height: approx. 70 cm, individual plants up to 150 cm

494670 Mehrjährige Blumenmischung für Bienen & Wildbienen SEED
Flower mix for bees & wild bees

**BLÜHENDE
GRÜNDÜNGUNG,
EINJÄHRIG**

- This mixture combines green manure with an attractive flowering effect
- Good soil coverage and competitive power against weeds
- Strong root penetration of the soil for loosening up and promoting tilth
- Contains legumes for nitrogen enrichment
- Ideal for improving the soil before planting high-quality permanent crops
- The species-rich composition also promotes bees, butterflies and beneficial insects, height: approx. 70 cm

494683 Blühende Gründüngung, einjährig SEED
Flowering green manure

494683 Blühende Gründüngung, einjährig

DECO GRASS

MIXTURES FOR PETS AND DECORATIVE

POACEAE

 1000				
500-1000 g*	I-XII	16-20	7-14	-

*) Direct sowing in pots

Type			
Katzengras	-	10	4-7

KATZENGRAS

- Cat grass offers pets fresh food that is rich in vitamins and minerals and it supports their digestion even in the winter, especially when they are housed indoors
- Fast development and stable habit
- Also ideal for growing in pots in a flat
- Height at the time of sales: approx. 10 cm

494920 Katzengras
Cat grass

SEED

494920 Katzengras

CUCUMIS SPECIES

Table with 2 rows and 5 columns: WILD CUCUMBER, CUCURBITACEAE, 1500/3000*, III-V**, 18-20, 10-14, 3-4

*) Pre-cultivation: 3 seeds/pot
**) Direct sowing from May

Table with 2 rows and 5 columns: Type, Dekofrüchte Mix (Cucumis species), 2, 14-16, -

DEKOFRÜCHTE MIX (CUCUMIS SPECIES)

- An attractive mixture of different coloured and shaped ornamental fruits for floristic use in autumn
- Ideal for cultivation in warm, protected locations or under glass
- Fruit size: approx. 3-8 cm

419350 Dekofrüchte Mix (Cucumis species) SEED

419350 Dekofrüchte Mix

CYCLANTHERA PEDATA

Table with 2 rows and 5 columns: STUFFING GOURD, CUCURBITACEAE, 1500/3000*, III-V**, 18-20, 10-14, 3-4

*) Pre-cultivation: 3 seeds/pot
**) Direct sowing from May

Table with 2 rows and 5 columns: Type, Cornuti, 1, 16-18, x

CORNUTI

- The green fruits are shaped like small horns and are as big as an olive
- Harvest regularly and in a timely manner so that the fruits remain tender and crisp
- Fresh, slightly sweet and aromatic flavour
- An attractive speciality for plant sales or marketing directly

428500 Cornuti SEED
Light green

428500 Cornuti

LAGENARIA SICERARIA

Table with 2 rows and 5 columns: BOTTLE GOURD, CUCURBITACEAE, 1500*, IV-V, 18-20, 10-14, 3-4

*) Direct sowing

Table with 2 rows and 5 columns: Type, Kalebassen Mix, Maranka, Speckled Swan, 1, 16-18, -

BOTTLE GOURDS

Table with 7 columns: Item no., Type, Weight (kg), Fruits/plant, Shelf life, Tendril formation, Maturing time (days). Rows include Kalebassen Mix, Maranka, and Speckled Swan.

o = medium, + = good, ++ = very good, o = little, x = strong, xx = very strong

KALEBASSEN MIX

- Mixture of several calabash varieties in different shapes, green shades and sizes
- Loves warmth, pre-cultivation is recommended
- Very vigorous habit

422330 Kalebassen Mix SEED
Green

422330 Kalebassen Mischung

MARANKA

- Dark green calabash type with striking, dented skin
- Length: approx. 40 cm
- Cultivation on trellises or supports produces straight fruit necks
- Vigorous habit
- Loves warmth, pre-cultivation is recommended

422340 Maranka SEED
Dark green

SPECKLED SWAN

- Strikingly shaped, green bottle gourd with light spots on the skin
- If cultivated in beds, they develop the characteristic, bent swan necks
- If the fruits hang on trellises, they remain slim and straight
- Vigorous habit
- Loves warmth, pre-cultivation is recommended

422360 Speckled Swan SEED
Green with light spots

422340 Maranka

422360 Speckled Swan

Small-fruited varieties

ALADIN (C. MAXIMA)

- A small turban type with a dark orange upper side and cream-coloured centre
- The fruits reach a diameter of approx. 12-15 cm

419500 Aladin

SEED

BABY BEAR (C. PEPO)

- A high yielding, orange pumpkin in an unusual intermediate size of approx. 0.8 to 1.2 kg
- Flat, round fruits with strong stems
- Medium-late ripening and good shelf life
- The husks of the seeds are thin, therefore well suited for roasting

419510 Baby Bear

SEED

BABY BOO (C. PEPO)

- The white counterpart to 'Jack be Little'
- White, flat-spherical, ribbed fruits with golden yellow flesh
- Edible fruits with a diameter of approx. 10 cm

419520 Baby Boo

SEED

BICOLOR PEAR (C. PEPO)

- Pear-shaped fruits, 10-15 cm in length
- The upper half is golden yellow, dark green below, some have light stripes
- Early and high yielding, vigorous habit

419550 Bicolor Pear

SEED

419500 Aladin

419510 Baby Bear

419520 Baby Boo

419550 Bicolor Pear

CUCURBITA

Spring product range 2026

BICOLOR SPOON (C. PEPO)

- Small, slender, club-shaped fruits, 12-15 cm in length
- The upper half is golden yellow, dark green below, some with cream white stripes
- Vigorous, climbing habit

419560 Bicolor Spoon

SEED

FLAME F1 (C. PEPO)

- Cream yellow pumpkin for microwaving with orange stripes and pronounced shoulder
- Diameter: approx. 8-10 cm
- Moderately slender
- Healthy growth, resistant to mildew

419605 Flame F1

SEED

HOARGARTH (C. PEPO)

- Golden yellow fruits with dark green markings reminiscent of spilled paint
- Attractive wart, flat-round fruit shape with a long stem
- Fruit size approx. 10-15 cm

419645 Hoargarth

SEED

BLACK KAT F1 (C. PEPO)

- A ribbed blackish green pumpkin that turns orange late in October
- Bushy growth, early yield
- Good resistance to mildew
- Fruit weight: approx. 400-600 g, suitable for the microwave

419561 Black Kat F1

SEED

FLAT STRIPED (C. PEPO)

- Flat, round, dark green, ornamental fruits with highly contrasting, light stripes
- Fruit size: approx. 8 cm
- Early and productive

419600 Flat Striped

SEED

ICICLE F1 PMT (C. PEPO)

- White mini pumpkin with very good suitability for decorative purposes.
- Beautifully ribbed, edible fruits with thick stalk, fruit weight approx. 400-800 g
- Little climbing plants, good resistance to powdery mildew
- Harvest white fruits early and store in the dark

419655 Icicle F1 PMT

SEED

CASPERITA F1 PMT (C. PEPO)

- White, flat, round, well-ribbed fruits with a weight of approx. 300 g
- Very much improved with regard to the colouration, yield and uniformity when compared to the small-fruited variety 'Baby Boo'
- Tolerant to powdery mildew
- Medium early ripening, ripening period: 90 days

419566 Casperita F1 PMT

SEED

GOLD DUST F1 (C. PEPO)

- Very high yielding mandarin pumpkin with a moderately vigorous habit
- High resistance to powdery mildew
- Diameter: approx. 8-10 cm

419610 Gold Dust F1

SEED

JACK BE LITTLE (C. PEPO)

- Bright orange fruits that resemble tangerines
- Diameter: 10-12 cm
- Attractive, edible ornamental pumpkin

419660 Jack be Little

SEED

CELEBRATION F1 (C. PEPO)

- Heart-shaped, edible fruits with cream yellow main colour and green-yellow marking
- Slightly smaller fruits than 'Harlequin', diameter: approx. 10-12 cm, weight: approx. 600 g
- Medium early, good yield

419570 Celebration F1

SEED

GREMLINS (C. PEPO)

- The warty ornamental fruits are versatile in their design and colour
- Contains star-shaped, pear-like, winged and mushroom-shaped fruits
- Medium early ripening, fruit size: approx. 12-15 cm

419630 Gremlins

SEED

DELICATA (C. PEPO)

- Oblong, cream-coloured fruits with green stripes and slight grooves, length: approx. 20 cm
- Tender flesh

419590 Delicata

SEED

HARLEQUIN (C. PEPO)

- Flat, round, grooved fruits with shoulders
- The colours range from cream white to yellow with dark green spots
- Edible fruits with a very good shelf life
- Diameter: approx. 12 cm

419640 Harlequin

Spring product range 2026

LIL' ORANGE MON
(C. PEPO)

MORE VARIETIES ONLINE

- The skin of the tangerine-shaped fruits is intense bright orange
- The fruits reach a diameter of approx. 12-15 cm
- Very decorative, long, dark green stems

419670 Lil' Orange Mon

SEED

LITTLE PUMP-KE-MON
(C. PEPO)

MORE VARIETIES ONLINE

- White, flattened fruits with yellow stripes
- An attractive contrast colour to orange and yellow fruits
- Fruit size: approx. 12 cm

419680 Little Pump-Ke-Mon

SEED

MINI RED TURBAN
(C. MAXIMA)

MORE VARIETIES ONLINE

- Orange-red, small, turban-shaped fruits with green and white stripes
- Ideal for bringing colour into ornamental pumpkin mixtures
- Diameter: approx. 10-12 cm

419690 Mini Red Turban

SEED

MINI WARTS F1 (C. PEPO)

MORE VARIETIES ONLINE

- Dense orange fruits covered with green warts.
- Fruit weight approx. 0.9-1.5 kg, diameter approx. 15 cm
- High resistance to powdery mildew
- Modest climber

419692 Miniwarts F1

SEED

MISS SOPHIE PINK
(C. MAXIMA)

MORE VARIETIES ONLINE

- Salmon pink coloured, ornamentally ribbed fruits with eye-catching stems
- Very tasty, thin flesh
- Fruit weight: approx. 400-600 g, diameter: approx. 10-12 cm

419695 Miss Sophie Pink

SEED

ROLET (C. PEPO)

MORE VARIETIES ONLINE

- Dark green, glossy, slightly spherical balls with a smooth, hard skin
- Productive, brings good contrasts into the pumpkin assortment
- Edible when young, diameter: approx. 7 cm

419710 Rolet

SEED

SAM ORANGE PMT
(C. PEPO)

MORE VARIETIES ONLINE

- Golden orange 'Jack Be Little' type with very distinctive stems and larger fruits that have a diameter of approx. 10 cm
- Suitable for microwaving
- High resistance to mildew and reliable, high yield

419715 Sam Orange PMT

SEED

SNOWBALL F1 (C. PEPO)

MORE VARIETIES ONLINE

- Small, very white fruits with a pronounced stem and a highly rounded shape
- Grows compactly with an early start to yield
- Dark storage promotes the preservation of the white colour
- Fruit weight approx. 0.8-1 kg

419725 Snowball F1

SEED

SPINNING GOURD
(C. PEPO)

MORE VARIETIES ONLINE

- Small, pear-shaped fruits with dark green skin and light stripes
- Fruit size: approx. 5-7 cm
- Can also be used in floristry as decorative fruits

419730 Spinning Gourd

SEED

SWEET DUMPLING
(C. PEPO)

MORE VARIETIES ONLINE

- Tasty fruits with a diameter of 10-12 cm
- Dark green stripes and spots form a very striking contrast to the cream white skin
- Orange-yellow, sweet flesh
- The fruits keep approx. 3-4 months

419740 Sweet Dumpling

SEED

SWEET LIGHTNING
(C. PEPO)

MORE VARIETIES ONLINE

- Flat, round pumpkins in mandarin form with deep orange stripes and light-coloured skin
- The 500 g fruits are very tasty and can be cooked in the microwave

419750 Sweet Lightning

SEED

WARZEN ORANGE
(C. PEPO)

MORE VARIETIES ONLINE

- Flat, round, light orange fruits that are covered with numerous warts
- Rich and reliable yield, keeps well
- Diameter: approx. 10 cm

419780 Warzen Orange

SEED

WEE-B-LITTLE (C. PEPO)

MORE VARIETIES ONLINE

- Very early, high yielding mini pumpkin
- Bright, golden orange skin and deep green-coloured stems
- The fruits are edible when young and can be used as "soup cup pumpkins"
- Diameter: approx. 10 cm

419790 Wee-B-Little

SEED

YELLOW JACKET F1 PMT

MORE VARIETIES ONLINE

- Small yellow mandarin squash with even ribbing
- Fruit weight approx. 150 g, also suitable as a microwave pumpkin
- Attractive, mildew-resistant addition to the white and orange varieties

Mixtures of small-fruited varieties

AUTUMN WINGS LARGE (C. PEPO)

- Elongated fruits with pronounced wings, warts and a curved neck
- Attractive colour combinations with approx. 25 cm fruit size

419799 Autumn Wings Large SEED

AUTUMN WINGS MEDIUM (C. PEPO)

- Mixture of heavily winged fruits in attractive colour combinations
- Medium-sized fruits, ideal for decorative purposes
- Good fruit set, fruit size: approx. 20 cm

419800 Autumn Wings Medium SEED

AUTUMN WINGS SMALL (C. PEPO)

- Mixture of small-fruited, heavily winged fruits in attractive colour combinations
- Early and rich yield, fruit size: approx. 15 cm

419810 Autumn Wings Small SEED

DAISY (C. PEPO)

- Mixture of slightly star-shaped fruits in yellow shades
- Attractive, two-coloured markings
- Fruit diameter: up to approx. 8 cm

419820 Daisy SEED

ESSBARE ZIERKÜRBISSE MIX (C. PEPO)

- Interesting mixture of small, edible fruits up to 20 cm in diameter
- Different combinations of colours and shapes
- Good durability, also suitable for decorative purposes

419830 Essbare Zierkürbisse Mix SEED

FAVORITA MIX F1 PMT (C. PEPO)

- A high-contrast mixture of mandarin-shaped fruits
- All varieties grow bushy and are early bearing
- Suitable for microwaving
- Good resistance to mildew

419835 Favorita Mix F1 PMT SEED

GALAXY OF STARS (C. PEPO)

- The predominately star-shaped fruits each form five stable, rounded rays
- Easy to clean mechanically after the harvest
- The mixture consists of many attractive colours
- Fruit size: approx. 300 g

419840 Galaxy of Stars SEED

GIZMO (C. PEPO)

- Star-shaped ornamental fruits with a large variety of colours and approx. 12 cm in diameter
- Rich and secure yield
- Bushy growth

419845 Gizmo SEED

GOBLIN EGGS MIX (C. PEPO)

- Egg-shaped ornamental pumpkin in a mixture of green, yellow and two-coloured fruits
- Fruit size: approx. 10 cm

419850 Goblin Eggs Mix SEED

KLEINFRÜCHTIGE SONDERFORMEN MIX (C. PEPO)

- Small-fruited formula mixture with a large variety of shapes
- An attractive mixture of one and multi-coloured fruits
- Fruit size: up to approx. 15 cm

419870 Kleinfrüchtige Sonderformen Mix SEED

KRONEN MIX (C. PEPO)

- Striking, jagged fruits in white, green or yellow with stripes or a two-coloured pattern
- A true eye-catcher in the assortment of ornamental pumpkins
- Fruit size: approx. 10-15 cm

419880 Kronen Mix SEED

LITTLE INDIAN MIX (C. PEPO)

- Small-fruited mixture with many warts
- Variiously shaped fruits in yellow and green shades
- An important part of the ornamental pumpkin range
- Fruit size: approx. 10-12 cm

419890 Little Indian Mix SEED

MAYA MIX (C. PEPO)

- Contrastingly colored fruits in a special variety of shapes
- Robust, lush, climbing plants
- Abundant yield that sets in early, long-lasting, approx. 10 cm large fruits

419893 Maya Mix SEED

419799 Autumn Wings Large

419800 Autumn Wings Medium

419650 Honey Bear F1

Butternut squash

ARIEL F1 (C. MOSCHATA)

- Butternut squash with a high yield potential and very uniform fruits that weigh 1-1.5 kg
- Fruits have a low tendency to crack and a large amount of flesh
- The vigorous growing plants and the high resistance to powdery mildew ensure a long growth phase

420090 Ariel F1

SEED

ATLAS F1 (C. MOSCHATA)

- Very reliable butternut squash with large, elongated fruits that weigh approx. 2-3 kg
- The good fruit set over a long period of time ensures a high yield
- High sugar content and good flavour, ideal for processing

420095 Atlas F1

SEED

BARBARA (C. MOSCHATA)

- A green butternut squash with light stripes
- The fruit flesh has an excellent quality, intense colouring and is very tasty
- Requires heat during cultivation, pre-cultivation in the spring is recommended for cooler locations
- Fruit weight: approx. 2-3 kg

420100 Barbara

SEED

BEJA (C. MOSCHATA)

- Larger butternut with 2-2.5 kg fruit weight
- Peel changes colour from dark green to bright bronze
- Deep orange, carotene-rich flesh of excellent quality

420104 Beja

SEED

EARLY BUTTERNUT F1 (C. MOSCHATA)

- A bell-shaped, pale yellow type of butternut squash
- Orange-coloured, sweet, aromatic flesh
- Medium early fruit set, fruit weight: approx. 1.3 kg

420110 Early Butternut F1

SEED

HONEYNUT (C. MOSCHATA)

- Mini butternut squash with dark orange flesh and a melon aroma
- The cylindrical fruits that weigh approx. 600 g change colour from green to brown
- Good resistance to mildew

420125 Honeynut

SEED

HUNTER F1 (C. MOSCHATA)

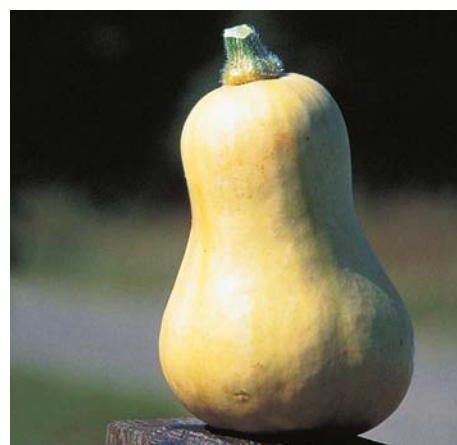

- Early maturing butternut squash with a fruit weight of approx. 1.2 kg
- High yielding, long fruits
- 'Hunter' F1 bears fruits early and reliably, even under cooler conditions

420130 Hunter F1

SEED

420104 Beja

420110 Early Butternut F1

CUCURBITA

Spring product range 2026

LONGUE DE NICE (C. MOSCHATA)

- Fruits with a length of up to 1 m that thicken towards the end
- The dark green, smooth skin later turns light brown
- Very durable and good storability
- Sweet flesh, fruit weight: approx. 6-10 kg

420135 Longue de Nice

SEED

GRANITE F1 (C. MOSCHATA)

- A reliable and proven main variety for professional cultivation
- High proportion of marketable fruits, few bursts, good shelf life
- Early fruit set, fruit weight when ripe: approx. 1.5-2 kg

420117 Granite F1

SEED

420135 Longue de Nice

METRO F1 (C. MOSCHATA)

- Very uniform butternut type with medium-sized fruits that weigh approx. 1.4 kg
- Highly tolerant to powdery mildew
- High dry substance content and good shelf life
- Short shoots and medium-late ripening fruits with smooth, light brown skin

420140 Metro F1

SEED

PILGRIM F1 (C. MOSCHATA)

- A reliable and proven main variety for professional cultivation
- High proportion of marketable fruits, few bursts, good shelf life
- Early fruit set, fruit weight when ripe: approx. 1.5-2 kg

420145 Pilgrim F1

SEED

420140 Metro F1

MIELUNA F1 PMT (C. MOSCHATA)

- Early bearing butternut with very uniform fruit size.
- Fruit weight approx. 1-1.3 kg
- Rich and secure fruit set
- Good resistance to powdery mildew

420141 Mieluna F1 PMT

84 | SEED

PLUTO F1 PMT (C. MOSCHATA)

- The long-lasting fruit set and the low tendency to crack ensure a high yield of medium-sized fruits that weigh 1-2 kg
- Good quality of the flesh, ideal for processing
- The vigorous plants have good resistance to mildew

420146 Pluto F1 PMT

SEED

420141 Mieluna F1 PMT

NUTTERBUTTER (C. MOSCHATA)

- Open-pollinated butternut with approx. 1.5 kg fruit weight
- Uniformly shaped fruits with good flesh quality
- Medium-strong climbing quality

420142 Nutterbutter

SEED

ULTRA F1 (C. MOSCHATA)

- Large-fruited butternut squash with oblong, slightly curved fruits
- Vigorous habit and medium late maturing
- Fruit weight: 4-5 kg, ideal for processing

420150 Ultra F1

SEED

420142 Nutterbutter

PIENA DI NAPOLI (C. MOSCHATA)

- Heavy, club-shaped fruits that mature from green to orange
- Thicker and heavier than 'Longue de Nice'
- The tasty fruits have firm, orange flesh, fruit weight: 10-20 kg

420144 Piena di Napoli

SEED

VEENAS F1 (C. MOSCHATA)

- A small butternut squash with good skin quality and durability
- The fruits weigh 0.6-1.2 kg and have a high percentage of flesh
- Good resistance to mildew
- Ideal for selling single fruits

420155 Veenas F1

CUCURBITA

Spring product range 2026

FICTOR (C. MAXIMA)

- Dark orange Hokkaido with smaller sized fruits, ideal for retailers
- Good flavour
- Uniform fruit size and colouration
- Very good durability until the end of January

420335 Fictor

SEED

GUSTAR F1 (C. MAXIMA)

- Large-fruited Hokkaido for gastronomy and industrial processing.
- globose, very uniform fruits weighing approx. 2.5-3 kg
- Good flesh quality and easily cooked skin
- Fruits can be stored well
- Strong, robust growth

420337 Gustar F1

SEED

LECKOR F1 (C. MAXIMA)

- Light grey, flat-round fruits with smooth skin and a fruit weight of approx. 1-1.5 kg.
- Excellent flesh quality and good taste
- Very good shelf life in store

420345 Leckor F1

SEED

ORANGE SUMMER F1 (C. MAXIMA)

- Vigorous hybrid Hokkaido squash
- Attractive, red skin
- Low susceptibility to mildew
- High fruit set of uniform fruits that weigh approx. 1.3 kg
- Early and reliable yield

420350 Orange Summer F1

SEED

SOLOR (C. MAXIMA)

- Ideal Hokkaido for professional cultivation with storage
- Dark orange fruit with a uniform size of approx. 1 kg, ideal for retailers
- Good flavour
- Very good durability up until the beginning of February

420375 Solor

SEED

SOMBRA F1 (C. MAXIMA)

- Grey crown type with sweet flesh
- Fruit weight: approx. 1.5-2 kg
- Excellent shelf life up to 5 months
- Healthy, robust growth with moderate tendrill formation

420377 Sombra F1

SEED

SUNSHINE F1 (C. MAXIMA)

- Flat, round fruits with bright, reddish orange skin
- Extraordinary sweet, starchy flesh
- Awarded with the All American Selections Medal
- Medium early ripening and relatively short shoots
- Fruit weight: approx. 1.5-2 kg

420380 Sunshine F1

SEED

TRACTOR F1 (C. MAXIMA)

- Vigorous growing, robust bush type with a high yield
- Flat, round fruits that weigh 2-4 kg depending on the selected planting density
- High proportion of flesh with a firm structure and a good flavour
- Easy to remove the seeds due to the fact that the seed set can be separated easily from the flesh
- Very good durability up until the end of February

420395 Tractor F1

SEED

UCHIKI KURI (C. MAXIMA)

- Orange-red coloured Hokkaido squash with an elongated neck
- The orange-red coloured flesh is very tasty and very healthy due to the high carotene content
- Very popular, edible variety for direct sales

420400 Uchiki Kuri

SEED

HOKKAIDO MIX (C. MAXIMA)

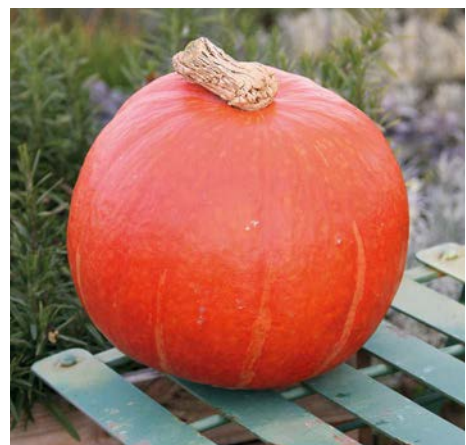

- Mixture of orange, dark green and white-green fruits with aromatic flesh
- Fruit size: 15-20 cm
- Onion-shaped, flat, round fruits, also suitable for autumn decorations

Large-fruited varieties

ATLANTIC GIANT (C. MAXIMA)

- Giant pumpkin for competitions, single fruits can reach more than 400 kg
- Light orange skin with slight grooves
- Edible flesh
- Vigorous tendrils

421110 Atlantic Giant

SEED

BLUE DOLL (C. MAXIMA)

- Flat, round, large fruits with silver-blue, shimmery skin
- Dark orange, edible flesh
- Late ripening, pre-cultivation improves the yield
- Resistant to powdery mildew
- Attractive ornamental pumpkin, fruit weight: approx. 10 kg

421035 Blue Doll

SEED

421110 Atlantic Giant

421035 Blue Doll

CUCURBITA

Spring product range 2026

BLUE HUBBARD (C. MAXIMA)

- Pear to top-shaped fruits with greyish blue colour and grooved skin
- The orange flesh is edible
- Vigorous habit, fruit size: approx. 40 cm

421040 Blue Hubbard

SEED

FLAT WHITE BOER (C. MAXIMA)

- Cream white, flat, round fruits with a diameter of approx. 40 cm
- Vigorous habit
- Edible, fruit weight: approx. 8-10 kg

421130 Flat White Boer

SEED

GRIZZLY BEAR F1 PMT (C. PEPO)

- Light brown fruits with pronounced warting and strong stalk.
- High yield of uniform fruits of approx. 3 kg
- Resistant to powdery mildew
- Eye-catching decorative pumpkin, also suitable for eating

421183 Grizzly Bear F1 PMT

SEED

CINDERELLA (C. MAXIMA)

- Bright red, flat fruits with marked ribs and a reliably high yield
- Good shelf life and edible, golden yellow flesh
- An attractive ornamental pumpkin with a diameter of approx. 40-50 cm

421060 Cinderella

SEED

FUNGO (C. MAXIMA)

- Uniform, medium-sized turban pumpkins with a predominantly orange-red colour
- Medium-strong trailing, plants that set off early

421137 Fungo

SEED

INVINCIBLE F1 (C. MAXIMA)

- Whitish grey, flat, round pumpkin with a good flesh quality and improved characteristics: easy to peel, easy to cut
- Deep orange, thick flesh
- Compact growing and uniform, early ripening
- Good shelf life, fruit weight: approx. 4.5 kg

421187 Invincible F1

SEED

CROOKNECK (C. PEPO)

- Golden yellow, club-shaped fruits with bent necks
- Densely covered with warts
- Early maturing, little creeping
- Fruit length: approx. 25 cm

421070 Crookneck

SEED

GALEUSE D'EYSINES (C. MAXIMA)

- Flat, round fruits with light orange colour are strikingly covered with light warts
- The warts resemble peanuts, therefore it is also called peanut pumpkin
- Edible, fruit size: approx. 30 cm

421150 Galeuse d'Eysines

SEED

ISTANBUL (C MAXIMA)

- Blue-gray ribbed selection of the popular Turkish honey squash
- Strong growing plants that need warmth
- Deep orange, sweet pulp with a pleasant aroma
- Fruit weight approx. 8-12 kg

421189 Istanbul

SEED

CROWN PRINCE F1 (C. MAXIMA)

- Flattened, greyish white fruits with smooth skins
- The flesh is particularly tasty and sweet
- Vigorous habit
- Good shelf life, fruit weight: approx. 3-5 kg

421080 Crown Prince F1

SEED

Pumpkins for carving

BABY MOON F1 (C. PEPO)

- Round, white fruits with smooth skin
- Ideal for arrangements and for unusual decorations
- Mildew tolerant, fruit weight approx. 2.5-3 kg

421697 Baby Moon F1 SEED

BABY PAM (C. PEPO)

- Round, bright orange fruits with a diameter of approx. 15 cm
- Firm, smooth skin with slight grooves
- High yield and robust habit
- The fruits weigh approx. 1-2 kg and are ideal for smaller carving pumpkins as well as for eating

421700 Baby Pam SEED

BIG MAX (C. MAXIMA)

- Pumpkin for carving and decorating with large, deep orange fruits
- Edible flesh
- Vigorous habit, medium late ripening
- Fruit weight of up to 50 kg is possible

421710 Big Max SEED

BIG MOOSE (C. MAXIMA)

- A very large pumpkin for carving and displaying
- Orange with light stripes
- Fruit weight: approx. 25-50 kg

421715 Big Moose SEED

BIG ROCK F1 (C. PEPO)

- Heavy carving pumpkin with round to blocky shape, slightly wider than 'Rockstar' F1
- Firm, early colouring, deep orange skin and strong stem
- Medium early ripening, weight: approx. 7 kg up to more than 10 kg

421720 Big Rock F1 SEED

BOOMER F1 PMT (C. PEPO)

- Top variety with dark orange, round to flat round fruits
- Attractive ribbed, high decoration value
- Moderately ranked
- High mildew tolerance
- High yield of uniform fruits in the standard size 5-7 kg

421730 Boomer F1 PMT SEED

CARGO F1 PMT (C. PEPO)

- Intense, orange-coloured, high-round fruit
- Dark green, thick stem
- Short tendrils and good resistance to powdery mildew
- Fruit weight: 9-12 kg

421735 Cargo F1 PMT SEED

CARRIE F1 PMT (C. PEPO)

- Evenly and beautifully coloured fruits with slight ribbing for carving and decorating
- Round to very round fruits weighing approx. 7-8 kg with good shelf life
- Restrained growth with short tendrils
- High mildew tolerance

421737 Carrie F1 PMT SEED

CHAMPION F1 (C. PEPO)

- Very large, comparatively early maturing pumpkin for carving
- Fruit weight: approx. 15-20 kg
- Well-ribbed, deep orange skin, the stem is thick and medium long

421740 Champion F1 SEED

CHARMANT F1 PMT (C. PEPO)

- Very uniform, flat-topped, round to blocky fruits with orange, slightly grooved skin
- High, reliable yield
- Somewhat later and larger than 'Racer' F1, weight: approx 7-9 kg
- Short shoots, high tolerance to powdery mildew

421750 Charmant F1 PMT SEED

CHUCKY F1 (C. PEPO)

- Very early maturing, high yielding pumpkin
- Minimal formation of tendrils
- Uniform fruits that weigh approx. 1-1.5 kg
- Ideal for children to carve and paint

421760 Chucky F1 SEED

COUGAR F1 PMT (C. PEPO)

- High-yield Halloween pumpkin in the weight class of 5–7 kg
- Slightly ribbed, round to highly rounded fruits
- Well-developed, dark green stalk
- Slight climbing tendency
- High resistance to powdery mildew

421764 Cougar F1 PMT

CUCURBITA

Spring product range 2026

CRONUS F1 PMT (C. PEPO)

- Dark orange pumpkin for carving and cooking with very strong, dark green stems
- Heavy, round to blocky fruits, approx. 15-20 kg
- High tolerance to powdery mildew
- Vigorous, robust habit with high yield
- Medium late harvest

421770 Cronus F1 PMT

SEED

FLYNN (C. PEPO)

- Small pumpkin for carving that weighs 3-4 kg with intense orange, ribbed skin
- Approx. 20-25 cm large fruits with thick, dark green stems
- Good resistance to powdery mildew, few tendrils
- The fruits are very durable if they have been harvested when well ripe

421775 Flynn

SEED

FORT KNOX F1 PMT (C. PEPO)

- Smaller carved pumpkin with approx. 2.5-3 kg fruit weight.
- High yield of deep orange, beautifully ribbed fruits with a slightly blocky shape.
- Thick, dark green stems
- Resistant to powdery mildew and vigorously climbing

421776 Fort Knox F1 PMT

SEED

GUMDROP F1 PMT (C. PEPO)

- Dark orange fruits with a slightly wider base
- Smaller standard size of approx. 5 kg
- Well ribbed, strikingly strong stalk
- Slight climbing tendency
- Good resistance to mildew

421778 Gumdrop F1 PMT

SEED

HERMES F1 PMT (C. PEPO)

- Dark orange fruits with slight ribbing
- Distinct, dark green stalk
- Semi-bush with short vines
- High mildew tolerance
- High yield of uniform fruit in the standard size of 5.5-7 kg

421779 Hermes F1 PMT

SEED

HOWDEN (C. PEPO)

- Proven, oval-shaped pumpkin for Halloween
- Medium late ripening, good shelf life
- Fruit weight: approx. 8-12 kg

421780 Howden

SEED

HOWDEN BIGGIE (C. PEPO)

- Very vigorous, voluminous pumpkin for cooking and carving in oval to blocky shapes
- The fruit size (15 kg, a good portion more than 20 kg) is larger than that of 'Rockstar' F1
- Medium late ripening, strong, clearly grooved, orange skin

421790 Howden Biggie

SEED

JACK O LATERN (C. PEPO)

- Pumpkin for carving with mainly round fruits, weight: 4-5 kg

421800 Jack O Latern

SEED

KRATOS F1 PMT (C. PEPO)

- Flat, round, orange quality fruit with distinctive, dark stems
- High resistance to mildew, good yield
- Sturdy, but short, trailing habit

421802 Kratos F1 PMT

SEED

MAGICIAN F1 PMT (C. PEPO)

- An attractive, round standard pumpkin for carving
- Dark orange, high-round fruits
- Good and reliable yield, resistant to mildew
- Ripens early, fruit weight: approx. 5-6 kg

421804 Magician F1 PMT

SEED

MISCHIEF F1 PMT (C. PEPO)

- Small pumpkin for carving and cooking with a fruit weight of approx. 1-1.5 kg
- High yielding, early variety with tolerance to powdery mildew
- The skin is slightly ribbed, deep orange-coloured and moderately firm
- Ideal for using as a smaller pumpkin for children to carve

421805 Mischief F1 PMT

SEED

MYSTIC PLUS F1 PMT (C. PEPO)

- Intense orange-coloured pumpkin for decorating and cooking with yellow flesh and a good flavour
- Uniform fruits with a weight of approx. 2.5 kg
- Reliable yield, slightly tendriled

421810 Mystic Plus F1 PMT

SEED

NEON F1 (C. PEPO)

- Exceptionally early maturing pumpkin for carving
- Smooth, orange skin and a fruit weight of approx. 3 kg

421820 Neon F1

SEED

MOONSHINE F1 (C. PEPO)

- Very uniform, white-coloured, medium-sized fruits that weigh approx. 3-5 kg
- The skin is very smooth, the long stems are dark green

CARAMBA F1

- Productive, well-filled pointed cabbage for summer and autumn harvests
- Quite sturdy variety, strong, dark green outer leaves
- Cold storage is possible for a short time, 50,000 - 70,000 plants / ha

507200 Caramba F1

SEED

Fresh market and storage varieties

VIENCO® WHITE

- Fresh market white cabbage for an early summer harvest
- Outer leaves are dark green, compact and upright
- Round, 1-2 kg heavy heads with superb inner quality
- Good field durability and a comparatively high sturdiness
- 45,000 - 65,000 plants / ha

507400 Vienco® White F1 (Farao)

DE-ÖKO-013 | SEED

KILASTOR F1

- Clubroot-resistant, large-headed storage cabbage for the highest demands
- Very healthy plants with dark green heads that weigh 2-3.5 kg
- Good for storage, 30,000 - 40,000 plants / ha

507650 Kilastor F1

SEED

LENNOX F1

- Standard variety with a high cultivation reliability and peak yields for long-term storage
- Heads weigh from 2 to over 4 kg, they are dark green and slightly oval
- With a wide planting distance, even heavy heads can be provided for the latest industrial purposes
- 30,000 - 38,000 plants / ha

507750 Lennox F1

Form of cultivation				
Fresh vegetables	30 x 30	-	-	6-10
Potted vegetables	-	-	-	-

White stems**CINDY F1**

- Very early variety for the earliest cultivation in the greenhouse and for the first plantings in the field under fleece
- Robust, with white bulbs that are clean on the bottom side

509450 Cindy F1

SEED

KORIST F1

- Standard variety for tunnel and outdoor cultivation throughout the entire season
- Round to flat round stems, strong, upright, dark green foliage
- Sturdy, with good resistance to bolting and only becomes woody slowly
- Good quality harvesting over a longer period

509500 Korist F1

DE-ÖKO-013 | SEED

KONAN F1

- Fast growing main variety for outdoor cultivation, good foliage development
- The sturdy hypocotyl and the position of the leaf stalk close to the stem make a fast harvest possible
- Little leaf breakage and easy packing, very good uniformity for a one-time harvest

509600 Konan F1

DE-ÖKO-013 | SEED

KONDOR F1

- Healthy and burst-resistant variety for year-round cultivation.
- Long, tautly upright and dark-green foliage even under drought stress
- Easy to harvest due to high stand

509610 Kondor F1

SEED

MALIBU® WHITE

- Outdoor variety that is particularly good for early cultivation due to its resistance to frost
- Also suitable for unheated greenhouse cultivation
- The stems are flat-round and have medium strong foliage

509750 Malibu® White F1 (Konmar)

84 | SEED

White stems, industrial varieties**KOSSAK F1**

- Late, very robust, white hybrid variety for industrial cultivation
- Very productive and sturdy, round, tender flesh and many leaves
- Can be harvested over a long period
- Weight: up to 3 kg/stem, planting distance: 50 x 70 cm

509850 Kossak F1

DE-ÖKO-013 | SEED

Blue stems**KONSTANCIE F1**

- Violet, flat-round and burst-proof outdoor kohlrabi for summer and autumn
- Interesting as a colour component next to green kohlrabi
- Upright growth, uniform crop, high harvest rate

510049 Konstancie F1

SEED

Blue stems**MALIBU® BLUE**

- Medium late greenhouse and outdoor variety
- Recommended for early outdoor sets due to its low sensitivity to cold and good resistance to bolting
- The stems have a good blue colour and are flat-round/round, the foliage is particularly strong and stable

510100 Malibu® Blue (Blaro)

Carrot specialities

PURPLE SUN F1

- Intense violet carrot speciality with uniform, medium violet colouration
- Slightly conical carrots with good lengths
- Comparatively good foliage characteristics, little susceptibility to bolting

523750 Purple Sun F1

SEED

RAINBOW F1

- Colourful variety with yellow, white and orange-red roots
- Also appealing as bunched carrots

523950 Rainbow F1

SEED

MELLO YELLO F1

- Golden yellow root, broadens the colour spectrum for carrots
- Aromatic carrots
- Stable foliage for an easy harvest

524000 Mello Yello F1

Orange-fleshed

- Early, very productive variety, can also be tested for later planting weeks.
- Inner colour orange, outer colour red
- In trials very uniform, comparatively compact tubers

525875 Erato® Vineland Early Orange (cv. V15L105) DE-ÖKO-013 | 84

525882 Erato® Vineland Salmon Orange (cv. V15L026)

- Particularly intensively coloured, firm sweet potatoes
- Inner colour intense orange, outer colour intense red
- Comparatively high-yielding variety, with shorter tendrils

525891 Erato® Vineland Intense Orange (cv. V16K450) DE-ÖKO-013 | 84

IPOMOEA AQUATICA

WATER SPINACH CONVULVACEAE

Form of cultivation	🌱	🌱	🌱	🌱
Fresh vegetables	20 x 30	-	-	6-8
Potted vegetables	-	12-13	16-18	4-6

- Water spinach originates from Asia and is now cultivated in many countries
- Very fine mild taste and delicious crunchy hollow stems
- Preparation is the same as for our native spinach. The stems can also be eaten.
- Also ideal as wok vegetables

525859 Yangtze 84 | SEED

- High-yield, uniform variety
- Inner colour orange with a reddish shimmer, outer colour light red

525882 Erato® Vineland Salmon Orange (cv. V15L026) DE-ÖKO-013 | 84

- High-yield, uniform variety
- Comparatively space-saving
- Inner colour orange, outer colour light red
- Particularly compact growth, facilitates hoeing between the rows

525884 Erato® Vineland Compact Orange (cv. V16L410) DE-ÖKO-013 | 84

525884 Erato® Vineland Compact Orange (cv. V16L410)

525891 Erato® Vineland Intense Orange (cv. V16K450)

RESISTENZEN GEMÜSE:

HR Hochresistent
IR Intermediärresistent

Capsicum annum:

- Tm = Viren der Tobamovirus-Gruppe
(u. a. Tobacco Mosaic Virus, Tomato Mosaic Virus und Pepper Mild Mottle Virus)
- TSWV = Bronzeflecken-Virus
(Tomato Spotted Wilt Virus)
- PC = Phytophthora capsici
- PVY = Kartoffel-Virus (Potato virus Y)
- Ma = Wurzelnematoden der Art Meloidogyne arenaria, bei Bodentemperaturen bis 28 °C. Oberhalb dieser Temperatur werden die Sorten zunehmend anfällig
- Mi = Wurzelnematoden der Art Meloidogyne incognita, bei Bodentemperaturen bis 28 °C. Oberhalb dieser Temperatur werden die Sorten zunehmend anfällig
- Mj = Wurzelnematoden der Art Meloidogyne javanica, bei Bodentemperaturen bis 28 °C. Oberhalb dieser Temperatur werden die Sorten zunehmend anfällig

Cucumis melo:

- PM = Echter Mehltau
- Ec = Echter Mehltau (Erysiphe cichoracearum)
- Gc = Echter Mehltau (Golovinomyces cichoracearum ex. Erysiphe cichoracearum)
- Sf = Echter Mehltau (Sphaerotheca fuliginea)
- Px = Echter Mehltau (Podosphaera xanthii ex. Sphaerotheca fuliginea)
- Fom = Fusarium-Welke
(Fusarium oxysporum f. sp. melonis)
- Ag = Melonen-Blattlaus (Aphis gossypii)
- MNSV = Melon Necrotic Spot Virus

Cucumis sativus:

- PM = Echter Mehltau
- Px = Echter Mehltau (Podosphaera xanthii ex. Sphaerotheca fuliginea)
- CGMMV = Cucumber Green Mottle Mosaic Virus
- CMV = Gurken-Mosaik-Virus (Cucumber Mosaic Virus)

1. Resistenzen
1.1. Terminologie

Es gibt unterschiedliche Grade der Spezifikation von Schädlingen oder Krankheitserregern in ihrem Verhältnis zu Pflanzen. Die Bestimmung dieser Spezifikation erfordert normalerweise sehr ausgefeilte Analysemethoden. Die Antwort auf die Frage, ob eine Pflanze von einem Schädling oder Krankheitserreger befallen werden kann, hängt unter Umständen von dem jeweils angewandten Analyseverfahren ab. Wichtig zu betonen ist, dass ganz allgemein die Spezifikation von Schädlingen und Krankheitserregern zeitlichen und regionalen Schwankungen unterliegen kann, dass sie von Umweltfaktoren abhängt und dass neue Schadorganismen oder neue Krankheitserregerstämme entstehen können, die Resistenzen überwinden können.

1.2. Definitionen
Immunität:

Erleidet keinen Befall von einem bestimmten Schädling bzw. wird von einem bestimmten Krankheitserreger nicht infiziert.

Resistenz:

Ist die Fähigkeit einer Pflanzensorte, Wachstum und Entwicklung des betreffenden Schädlings oder Krankheitserregers und/oder die von diesem verursachten Schädigung im Vergleich zu anfälligen Pflanzensorten, unter vergleichbaren Umweltbedingungen und vergleichbarem Schädlings- und Krankheitserregerdruck, zu begrenzen. Bei resistenten Sorten können bei hohem Schädlings- und Krankheitserregerdruck in gewissem Maße Krankheitssymptome oder Schädigungen auftreten.

- CVYV = Gurken-Adernvergilbungs-Virus
(Cucumber Vein Yellowing Virus)
- ZYMV = Zucchini-Gelbmosaik-Virus
(Zucchini Yellow Mosaic Virus)
- PRSV = Papaya-Ringflecken-Virus
(Papaya Ringspot Virus)
- WMV = Wassermelonen-Mosaik-Virus
(Watermelon Mosaic Virus)
- Pcu = Falscher Mehltau
(Pseudoperonospora cubensis)
- Cca = Gurken-Blattbrand (Corynespora cassiicola)
- Ccu = Gurkenkrätze (Cladosporium cucumerinum)
- Fon = Fusarium-Welke an Wassermelonen
(Fusarium oxysporum f.sp. niveum)
- Foc = Fusarium-Welke an Gurken
(Fusarium oxysporum f.sp. cucumerinum)
- Fom = Fusarium-Welke an Melonen
(Fusarium oxysporum f.sp. melonis)

Cucurbita pepo:

- CMV = Gurken-Mosaik-Virus (Cucumber Mosaic Virus)
- ZYMV = Zucchini-Gelbmosaik-Virus
(Zucchini Yellow Mosaic Virus)
- WMV = Wassermelonen-Mosaik-Virus
(Watermelon Mosaic Virus)
- PRSV = Papaya Ringspot Virus (Papaya Ringspot Virus)
- Gc = Echter Mehltau (Golovinomyces cichoracearum)
- Px = Echter Mehltau (Podosphaera xanthii)

Lactuca sativa:

- Bl = Falscher Mehltau (Bremia lactucae)
- Nr = Grüne Salatblattlaus (Nasonovia ribisnigri)
- LMV = Salatmosaikvirus (Lettuce Mosaic Virus)
- Pb = Salatwurzellaus (Pemphigus bursarius)

Phaseolus vulgaris:

- BCMV = Gewöhnliches Bohnenmosaik-Virus
(Bean Common Mosaic Virus)
- CI/A = Brennflecken
(Colletotrichum lindemuthianum)
- Psp/Ps = Fettflecken
(Pseudomonas syringae pv. phaseolicola)

Es werden zwei Resistenzgrade definiert:

Hohe/Standardresistenz (HR):

Pflanzensorten, die das Wachstum und die Entwicklung des betreffenden Schädlings oder Krankheitserregers bei normalem Schädlings- oder Krankheitserregerdruck im Vergleich zu anfälligen Sorten in hohem Maße begrenzen. Diese Pflanzensorten können jedoch bei hohem Schädlings- oder Krankheitserregerdruck in gewissem Maße Befallssymptome oder Schädigungen aufweisen.

Mäßige/intermediäre Resistenz (IR):

Pflanzensorten, die das Wachstum und die Entwicklung des betreffenden Schädlings oder Krankheitserregers begrenzen, aber im Vergleich zu resistenten Sorten mehr Symptome oder Schädigungen aufweisen können. Mäßig/intermediär resistente Sorten werden immer noch weniger schwerwiegende Symptome oder Schädigungen aufweisen als anfällige Pflanzen, die unter vergleichbaren Umweltbedingungen und/oder vergleichbaren Schädlings- oder Krankheitserregerdruck angebaut werden.

Anfälligkeit:

Ist die Unfähigkeit einer Pflanzensorte, das Wachstum oder die Entwicklung eines bestimmten Schädlings oder Krankheitserregers einzuschränken.

1.3. Resistenz-Informationen zu den Sorten

Die Resistenzen unserer Züchtungen sind codiert falls nicht anderweitig vermerkt.

Solanum lycopersicum:

- ToMV = Tomaten-Mosaik-Virus (Tomato Mosaic Virus)
- ToBRFV = Tomato Brown Rugose Fruit Virus
- TSWV = Bronzeflecken-Virus
(Tomato Spotted Wilt Virus)
- ToTV = Tomato-Torrido-Virus
- TYLCV = Tomato Yellow Leaf Curl Virus
- Ff/Pf = Samtfleckenkrankheit
(Fulvia fulva, ex Cladosporium fulvum)
- Fol = Fusarium-Welke
(Fusarium oxysporum f. sp. lycopersici)
- For = Fusarium - Kopf- und Fuß-Fäule
(Fusarium oxysporum f. sp. radicles lycopersici)
- On = Echter Mehltau (Oidium neolycopersici)
- Pi = Phytophthora infestans
(Kraut- und Braunfäule)
- Va = Verticillium-Welke (Verticillium albo-atrum)
- Vd = Verticillium-Welke (Verticillium dahliae)
- V = Verticillium-Welke (Verticillium albo-atrum - Verticillium dahliae race 1)
- Ss = Stemphylium solani
- Ma = Wurzelnematoden der Art Meloidogyne arenaria, bei Bodentemperaturen bis 28 °C. Oberhalb dieser Temperatur werden die Sorten zunehmend anfällig
- Mi = Wurzelnematoden der Art Meloidogyne incognita, bei Bodentemperaturen bis 28 °C. Oberhalb dieser Temperatur werden die Sorten zunehmend anfällig
- Mj = Wurzelnematoden der Art Meloidogyne javanica, bei Bodentemperaturen bis 28 °C. Oberhalb dieser Temperatur werden die Sorten zunehmend anfällig
- M = Wurzelnematoden der Arten Meloidogyne arenaria, Meloidogyne arenaria, Meloidogyne javanica, bei Bodentemperaturen bis 28 °C. Oberhalb dieser Temperatur werden die Sorten zunehmend anfällig.
- PI = Korkwurzelkrankheit (Pyrenochaeta lycopersici)
- Spinacia oleracea:
- Pfs = Falscher Mehltau
(Peronospora farinosa f.sp. spinaciae)

Bei Sorten mit Resistenzen gegen mehr als einen Erreger sind die Resistenzcodes getrennt durch "/". Wenn sich ein Resistenzcode auf eine bestimmte Rasse einer Krankheit bezieht, besteht kein Schutz gegen eine andere Rasse dieses Pathogens. Bezieht sich die Resistenzangabe nicht auf eine bestimmte Rasse eines Erregers sondern auf unbestimmte, nicht spezifizierte Rassen, kann nicht garantiert werden, dass die jeweilige Sorte nicht trotzdem durch besagtes Pathogen infiziert wird.

Die im Katalog angegebenen Resistenzen beruhen auf dem aktuellen Wissenstand zum Drucktermin. Eine Brechung von Resistenzen durch den jeweiligen Schaderreger kann jedoch nicht ausgeschlossen werden.

2. Haftungsausschluss

Wir haben unseren neuen Katalog mit der größten Sorgfalt erstellt, es können sich jedoch trotzdem Druckfehler eingeschlichen haben. Für Druckfehler kann keine Haftung übernommen werden.

Hinweise von Volmary in jedweder Form sind ohne Gewähr. Beschreibungen, Empfehlungen und Illustrationen basieren so weit als möglich auf praktischen Erfahrungen und Versuchen. Volmary akzeptiert in keinem Fall die Haftung für unterschiedliche Ergebnisse beim angebauten Produkt. Der Käufer muss selbst entscheiden, ob die Ware und die Informationen für den lokalen Anbau geeignet sind.

Genovese basil

V BARISTO®

- Genovese variety for year-round pot production with moderate resistance to mildew
- Bright green colour, leaves are slightly smaller and flatter than Gemma and Geniale
- Perfect for producing fresh cuts in summer outdoors
- The best choice for organic producers

553570 Baristo® (Gemini)

DE-ÖKO-013 | 84 | SEED

GENNY

- New 'Genovese Classico' variety grown in Liguria
- Compact plant, suitable for pot production
- Dark green leaves of type 'Genovese', intense aroma
- Moderate resistance to downy mildew

553579 Genny

SEED

Genoese cut basil

GENTILE

- New quality cut basil in the Superbo type with intermediate resistance to downy mildew.
- Dark green Genoveser type leaves, very intense aroma, vigorous, medium compact plant.

553680 Gentile

SEED

SUPERBO

- Particularly uniform cut basil in the 'Genovese Classico' type.
- Vigorous plant with medium compact growth habit
- Large deep green leaves, intense flavour in the classic Genovese basil aroma
- Due to fast growth and early market height, it is also interesting for the pot area

553690 Superbo

SEED

Red basil

RED RUBIN

- Medium-compact red basil variety with flat leaves
- Red Ruby grows well in pots and outdoors in summer

Potted fruit - 13 / 17-19 5-15 40-50

SUMMER PEARLS® RED
A strikingly large-fruited red currant with harvest in July
Attractive, shiny berries with more flesh, fewer seeds and a mild aroma
562049 Summer Pearls® Red DE-ÖKO-013 | 60

SUMMER PEARLS® WHITE
Very large, white berries on long strings, harvest in July
Exceptionally mild, less acid and more sugar
562099 Summer Pearls® White DE-ÖKO-013 | 60

RIBES UVA-CRISPA
GOOSEBERRY GROSSULARIACEAE
Form of cultivation
Fresh fruit 200 x 100 - - 50-70
Potted fruit - 13 / 17-19 5-15 40-50

562399 Coolaris® Early

- Golden yellow, remarkably large-fruited gooseberry
- Sugary sweet fruits for snacking with smooth, pleasant skin
- Comparatively robust against powdery mildew

562199 Giggles® Gold DE-ÖKO-013 | 72

- A green, large-fruited gooseberry with aromatic, crisp fruits
- Comparatively resistant to powdery mildew

562249 Giggles® Green DE-ÖKO-013 | 72

- A red, delicious gooseberry for the highest demands
- Medium-sized, with a particularly berry-like, intense snack aroma
- Healthy bushes that are tolerant to powdery mildew

562299 Giggles® Red DE-ÖKO-013 | 72

RUBUS FRUTICOSUS

BLACKBERRY ROSACEAE

Form of cultivation	ψ-ψ	☐	ψ-ψ	☐
Fresh fruit	200 x 100	-	-	50-70
Potted fruit	-	13 / 17-19	5-15	40-50

- A thornless, particularly large-fruited early blackberry for harvesting in July on last year's canes
- Convinces due to its sweet, slightly fruity aroma with a balanced ratio of sugar/acid

562399 Coolaris® Early DE-ÖKO-013 | 72

- An excellent blackberry for gardens that bears fruit on this year's canes
- Rich harvest already starting in mid-August, very large, aromatic fruits

562449 Coolaris® Garden Black DE-ÖKO-013 | 72

- A compact, thornless blackberry with a rich harvest on this year's canes
- Forms large, regularly shaped, tasty, black fruits from mid-August to early October
- Ideal for growing in pots on balconies and terraces, height: 70-100 cm

562469 Coolaris® Patio Black DE-ÖKO-013 | 72

RUBUS IDAEUS

RASPBERRY ROSACEAE

Form of cultivation	ψ-ψ	☐	ψ-ψ	☐
Fresh fruit	100 x 40	-	-	50-70
Potted fruit	-	13 / 17-19	5-15	40-50

- Aromatic early raspberry for the June-August harvest on last year's canes
- Large, conical fruits, firm, medium to dark red, good aroma

562599 Summer Lovers® Early DE-ÖKO-013 | 72

- A red-coloured garden raspberry that bears fruit on one-year-old canes with harvest starting in August
- Large, very regular, conical fruits with an excellent flavour

562749 Summer Lovers® Garden Red DE-ÖKO-013 | 72

- A golden yellow garden raspberry that bears fruit on one-year-old canes with harvest starting in August
- Very large fruits with a sweet, fine aroma

562760 Summer Lovers® Garden Golden DE-ÖKO-013 | 72

Spring product range 2026

SUMMER LOVERS® **GARDEN APRICOT**

- Bright apricot-coloured garden raspberry fruiting on the annual shoots
- The thornless rods form a large number of large gourmet fruits from August
- Fantastic colour addition to the 'Summer Lovers Garden' series

562773 Summer Lovers® Garden Apricot DE-ÖKO-013 | 72

SUMMER LOVERS® **GARDEN PURPLE**

- A purple-coloured garden raspberry that bears fruit on one-year-old canes with harvest starting in August
- Large fruits with a fascinating, resinous-smoky flavour

562775 Summer Lovers® Garden Purple DE-ÖKO-013 | 72

SUMMER LOVERS® **PATIO EARLY**

- Compact early raspberry with a rich harvest of refreshing, aromatic fruits
- The thornless twigs, up to 60 cm long, bear fruit on the biennial wood from mid-end June
- Ideal for larger pots on the balcony and terrace; after the harvest, the fruit-bearing twigs are pruned back

562778 Summer Lovers® Patio Early DE-ÖKO-013 | 72
NEW

SUMMER LOVERS® **PATIO RED**

- Compact growing, thornless raspberry for pots that bears fruits on this year's canes
- The harvest of the dark red, aromatic fruits starts from mid-July onwards
- Height: approx. 80 cm, ideal for growing in pots

562780 Summer Lovers® Patio Red DE-ÖKO-013 | 72

SUMMER LOVERS® **PATIO GOLD**

- Yellow, compact pot raspberry, carries on this year's rods
- Perfect sister variety to Summer Lovers® Patio Red, height approx. 100 cm
- Convinces with its aroma and great luminosity

562785 Summer Lovers® Patio Gold DE-ÖKO-013 | 72

SUMMER LOVERS® **PATIO ORANGE**

- Orange-coloured pot raspberry fruiting on this year's canes.
- Very good, mildly sweet taste
- Thornless, height up to 100 cm

562790 Summer Lovers® Patio Orange DE-ÖKO-013 | 72

VACCINIUM X CORYMBOSUM

General Terms and Conditions of
Volmary GmbH

1. General

1.1 The following General Terms and Conditions apply to all sales and licensing procedures that take place within the context of our sales business, insofar as it is not stated otherwise in our offer or in the confirmation of the order.

1.2 Our General Terms and Conditions are exclusively applicable. Any opposing conditions, or any conditions that diverge from the General Terms and Conditions of the ordering party, as well as any side agreements, are only binding if we have expressly agreed to their validity in writing. Our General Terms and Conditions shall also apply if we execute the delivery without reservation, in the knowledge that the Terms and Conditions of the ordering party are contrary to or divergent from our Terms and Conditions.

1.3 The following General Terms and Conditions apply exclusively to companies in the sense of Section 14 of the BGB (German Civil Code).

1.4 Insofar as no divergent provision has been made, the Incoterms 2020 (EXW in accordance with INCOTERMS 2020), including any supplements valid at the time of conclusion of the contract, shall apply in terms of the interpretation of the customary forms of the contract.

2. Offer – Closing of Contracts

2.1 Presentation of our products (seeds, bulbs, seedlings/young plants etc.) in advertising and other materials, including our web pages, do not represent legally binding offers in the sense of Section 145 of the BGB. They are free and non-binding. They are merely to be seen as encouragement to an ordering party to submit orders.

2.2 The binding nature of the order placed by the ordering party, with respect to our company, shall be two weeks from the date of receipt of the order, unless otherwise specified at the time of submission of the order.

2.3 The order shall only be deemed to have been placed upon receipt of our written confirmation. Execution and delivery of the ordered goods or services by us without prior written confirmation shall also be deemed as acceptance of the order.

2.4 If our acceptance – whether in writing or by execution of the order – takes place after expiry of the binding period of two weeks (Clause 2.2), the contract shall nevertheless be deemed to have been concluded, insofar as the ordering party does not react immediately.

2.5 We reserve the right to adjust the varieties, quantities and delivery dates in our order confirmations, according to the actual delivery possibilities. Such changes shall be deemed to have been agreed upon if the ordering party does not object within eight calendar days of receipt of the order confirmation. This shall only apply if the changes made to the order appear acceptable to the ordering party, under consideration of our interests.

3. Delivery

3.1 Unless otherwise agreed in the respective contract, the agreed delivery dates refer to the provision of the goods for handover or dispatch at our production plant in Senden (ex our premises Incoterms 2020).

3.2 Insofar as the delivery by our suppliers is not correct or on time, our obligation to deliver shall be suspended. This shall only apply in the event that we or our supplier are not responsible for the failure to meet the deadline.

3.3 Shortages of raw materials or energy, strikes, lockouts, traffic disruptions, official decrees or other restrictions under public law, operational disruptions, all cases of force majeure and other circumstances, in particular trade restrictions as a result of the Corona pandemic, for which neither we nor our vicarious agents can be held responsible and which could not have been foreseen by us, shall release us from our obligation to deliver and, if applicable, from our licensing obligations, for as long as they persist, insofar as these circumstances affect our ability to deliver.

3.4 In the cases of Sections 3.2 and 3.3, shall be entitled to withdraw from the contract without any obligation to pay damages if performance becomes impossible or unreasonable for us, or if an end to the impediment to the performance is not foreseeable. This shall only apply if we or our vicarious agent are not responsible for the impediment to the performance and if we have immediately informed the ordering party of the aforementioned impediments to the performance. In the event of withdrawal from the contract, we are obliged to immediately reimburse any payments already made by the ordering party.

4. Duty to examine and to notify of defects

4.1 We are entitled to execute orders in the form of partial deliveries, unless otherwise agreed. The ordering party can only justifiably refuse acceptance of partial deliveries if they are objectively of no interest to them. The ordering party shall declare refusal of acceptance in writing; the lack of objective interest must be justified in writing together with the refusal.

4.2 The ordering party shall inspect and examine the goods immediately upon receipt, insofar as this is feasible in the ordinary course of business. Depending on the scope of the delivery, the inspection/examination shall be carried out by taking a sufficient number of random samples, as required. If the ordering party requests a delivery to a third party, he must ensure that an immediate inspection and examination of the goods takes place.

4.3 The obligation of the ordering party to examine the goods and give notice of defects also extends to phytosanitary properties, i.e. in particular to viruses, pest infestations and diseases. If the ordering party suspects the existence of such phytosanitary issues, they must proceed as described in Section 10.7. Furthermore, in particular – especially with regard to the duty to minimise damage incumbent upon themselves – they shall separate the possibly infested or sub-standard goods from other goods, both those delivered by us and those already present at the ordering party's premises, in order to prevent the spread of the infestation/infestation.

4.4 In the event of obvious lack of quality, incorrect deliveries or shortfalls in terms of quantities, the ordering party must notify us immediately, at the latest within 3 calendar days. The notification must be made in writing. Transport staff are not authorised to accept complaints. If the ordering party fails to provide such notification, the goods shall be deemed to have been approved and the ordering party shall not be entitled to claim any rights arising from lack of quality, unless it was not recognisable during the inspection. In all other respects, Sections 377 et seq. of the HGB shall apply.

4.5 The ordering party shall notify us of any quality issue that are not immediately apparent (hidden issues) immediately upon discovery thereof.

4.6 The ordering party is obliged to inspect the goods for transport damage – if necessary by way of appropriate random samples – upon receipt. If any transport damage is detected, the ordering party must immediately prepare a report in which the condition of the goods and the transport damage are recorded. The report must be handed to the transport staff for signature. The ordering party is obliged to report any transport damage to the transport company without delay, together with this report, and to inform us, along with a copy of the report. We shall not be held liable for transport damage – subject to Section 11 – unless the damage

was caused intentionally or due to gross negligence, either by us or by one of our vicarious agents.

4.7 The acceptance of a notice of lacking quality on our part does not constitute an acknowledgement of the alleged condition.

5. Prices and Delivery Modalities

5.1 Unless otherwise agreed in the respective contract, all prices are ex our production facility in Senden. All costs relating to the goods, such as duties, insurance, taxes, storage costs, etc., shall be borne by the ordering party once the goods are made available at our production plant in Senden. Shipment shall only take place at the request of the ordering party; in this case, any additional freight/transport costs shall also be borne by the ordering party, and we shall transfer them accordingly.

5.2 The risk of accidental loss of the goods shall be transferred to the ordering party upon handover to the transport company.

5.3 We shall take back sales packaging, within the scope of the statutory obligations. Unless otherwise agreed in the respective contract, such packaging materials must be returned to our production plant in Senden, and this shall be arranged by the ordering party at their own expense.

5.4 Other transport packaging will be charged to the ordering party, unless otherwise agreed. If such materials are returned to us by the ordering party, undamaged, they will be credited accordingly.

5.5 Unless otherwise agreed in the respective contract, the loading of the goods at our production plant in Senden shall be arranged by the ordering party. This also applies in the event that the ordering party commissions the collection of the goods. Insofar as we provide the ordering party or their agents with support during loading, this shall be deemed to be a matter of courtesy on our part. The ordering party or their agents shall be solely responsible for proper loading, and in particular for compliance with the regulations relating to the securing of the load.

5.6 Our prices are based on the listed price at the time at which the order becomes binding, unless otherwise agreed. Insofar as no divergent agreement has been made in the respective contract, the prices are ex our production facility in Senden, excluding packaging and the statutory VAT.

6.0 Conditions of Payment

6.1 Invoiced amounts are due 30 days after the invoice date. Any discounts require an express prior written agreement. Such discounts must be agreed anew for each contract.

6.2 If there is a statutory change in VAT after conclusion of the contract, the value added tax shall be charged at the new rate applicable by law.

6.3 Insofar as partial deliveries are made, in accordance with Section 4.1, or in agreement with the ordering party, we shall be entitled to invoice each partial delivery individually. Invoicing shall be based on the agreed individual prices.

6.4 Payments shall only be submitted to one of our bank accounts, as stated on the invoice.

6.5 Unless otherwise agreed in individual cases, payments made by the ordering party shall always be set off against the oldest outstanding claim. The offsetting shall be carried out in accordance with the statutory regulation of Section 367 of the BGB, i.e. first on the costs, then on any interest and finally on the relevant principal claim. Any other provision of services by the debtor, after the conclusion of the contract, shall be deemed irrelevant.

6.6 Cheques will only be accepted as conditional payment. Payment shall only be deemed to have been made when and insofar as the amount has been irrevocably credited to our account. Any charges incurred by the bank, in particular in the event of dishonoured cheques, shall be borne by the ordering party.

7 Defaults

7.1 The occurrence and consequences of a default shall be governed by the statutory provisions of Sections 286, 287 and 288 of the BGB.

7.2 If the ordering party is in default of payment, we may withdraw from all contracts from the mutual business relationship or only provide further deliveries and services – also for other contracts from our mutual business relationship – dependent on advance payments or securities, at our discretion; we are also entitled to disclose all assignments (Section 9.1) to all customers of the ordering party, and to demand immediate payment to us. This shall not apply if the ordering party is only in arrears with minor amounts and there is no doubt as to their solvency; in arrears in payments shall be deemed to be minor if it amounts to a maximum of 5% of the total order volume from which it originates.

7.3 The ordering party may only offset any counterclaims if these are either recognised by us or have been legally established.

8. Retention of Title

8.1 We retain the title to the goods delivered by us until all claims to which we are entitled from the underlying contract – including any costs, interest and damage caused by delay – have been met in full.

8.2 Our ownership also extends to the goods, plants and products produced by the ordering party through cultivation, processing, blending or mixing of the goods delivered by us, under retention of title. If any of our goods subject to retention of title are processed or inseparably mixed with goods still owned by third parties, we shall acquire co-ownership of the new goods or mixed stock. The extent of the co-ownership results from the ratio of the invoice value of the goods delivered by us under retention of title to the invoice value of the remaining goods.

9. Transfer of Claims

9.1 The ordering party shall be entitled to resell the goods delivered by us within the scope of their proper business transactions. In this case, they hereby assign the claim against their customer arising from the resale to us. The assignment is limited to the amount of our claim arising from the delivery of the resold goods, including any costs, interest and damages caused by delay, insofar as these have already been invoiced to the ordering party and registered. At our request, the ordering party shall disclose all resales of goods not yet paid for, name the recipients in full and provide us with all the required information for the direct enforcement of the claims assigned to us.

9.2 The ordering party is obliged to ensure, by means of suitable agreements with its customers, within the scope of what is legally permissible, that the claims assigned to us are not forfeited by offsetting, but are only fulfilled by payment; to the required extent. They must refer to the assignment for this purpose.

9.3 The ordering party is entitled to collect claims assigned to us from its customers. The ordering party is obliged to immediately forward any such payments received from its customers to us, up to the amount of the claims to which we are entitled. If the ordering party collects claims assigned to us by their customers, without passing them on to us accordingly, we are entitled to disclose the assignment with regard to all claims – also against other customers – and to demand immediate payment to us. Furthermore, we are entitled to revoke the authorisation to collect if the ordering party is in default with the fulfilment of their obligations towards us, in particular regarding payments, or if another circumstances become known, which

cast doubt on their creditworthiness. If the authorisation to collect lapses or is revoked by us, the ordering party must inform us immediately, at our request, of the debtors of the assigned claims and provide us with the information and documents required for collection.

9.4 If any third parties, particularly within the scope of compulsory execution or insolvency law measures, want to access the goods that are our property, the ordering party must inform them of our ownership and present the relevant documentation. At the same time, they must inform us immediately. If we incur any costs in defending ourselves against alleged third-party claims to the goods that are our property, the ordering party shall reimburse these costs, insofar as they are not actually reimbursed by third parties; we shall assign any claims against third parties to the ordering party concurrently.

9.5 If the value of the securities granted to us by the ordering party exceeds the sum of our secured claims by more than 20%, we are obliged to release the securities exceeding 20% at the request of the ordering party. We shall select the securities to be released at our reasonable discretion.

10. Guarantee

10.1 Insofar as any goods delivered by us are found to be defective, the cause of which already existed at the time of the transfer of risk, in principle we shall be obliged to fulfil our guarantee obligations, insofar as we are notified of the defect within the limitation period (Section 10.4).

10.2 If the ordering party resells the goods delivered by us and its customer or the last customer in the supply chain is a consumer in the sense of Section 13 of the BGB, the ordering party may submit a claim against us in accordance with the statutory provisions of Sections 478 and 479 of the BGB, by way of so-called supplier recourse. If a justified case of supplier recourse exists, the restrictions on our guarantee obligations as set out in these General Terms and Conditions shall not apply.

10.3 The prerequisite for supplier recourse is that the goods delivered by us are sold to the consumer in an unchanged condition throughout the entire supply chain. Insofar as the goods have been cultivated or otherwise changed, or improperly handled in the meantime, supplier recourse shall not come into consideration. Supplier recourse presupposes that the short-coming present at the time of handover to the consumer also constitutes a shortcoming in the relationship between us and the ordering party.

10.4 The period of limitation for guarantee claims is one year from the start of the statutory period of limitation. In deviation from this, the statutory periods of limitation shall apply insofar as the ordering party justifiably asserts a claim against us, within the context of the supplier recourse (Sections 10.2 and 10.3).

10.5 If the ordering party breaches their duties of inspection and notification of complaints, in accordance with Section 4, they may lose their rights under guarantee, pursuant to the provisions as set out in Section 4.

10.6 If the ordering party notifies us of any shortcomings, whether in accordance with Section 4 or 4.5, they must give us the opportunity to examine the goods ourselves and/or have them examined by third parties commissioned by us. If the ordering party commissions any third parties, particularly an expert, to inspect the goods or determine any shortcomings, we shall only be obliged to bear the costs incurred if an immediate inspection is objectively necessary and we do not carry out an inspection immediately.

10.7 If the ordering party asserts guarantee claims, we shall initially only be obliged to provide supplementary performance (rectification of the defect or delivery of a defect-free item). If we refuse subsequent fulfilment or if subsequent delivery fails or is unreasonable for the ordering party, the ordering party may reduce the purchase price or withdraw from the contract. Claims for damages on the part of the ordering party are excluded, subject to the provisions in Section 11.2.

10.8 If the ordering party has the right to claim subsequent fulfilment by delivery of goods free of defects, we shall be entitled to adjust the varieties supplied to the actual delivery possibilities, insofar as the deviation is reasonable for the ordering party.

11. Claims for Damages

11.1 Insofar as the ordering party is entitled to claims for damages or reimbursement of expenses due to shortcomings that are not excluded by the above agreements or Section 11.2, they shall be subject to a limitation period of one year.

11.2 Claims for damages or reimbursement of expenses on the part of the ordering party, irrespective of the legal grounds, in particular due to breach of obligations arising from contractual obligations or unlawful acts, shall be excluded, subject to the exceptions stated below:

- In the event of a slightly negligent breach of cardinal obligations, our liability shall be limited to the damage typically occurring in transactions of this type.
- Damages resulting from injury to life, body and health caused by a negligent breach of duty on our part, or a negligent or intentional breach of duty on the part of our legal representatives or our vicarious agents.
- Other damages, based on an intentional or grossly negligent breach of duty on our part or intentional or grossly negligent breaches of duty on the part of our legal representatives or our vicarious agents.

11.3 Furthermore, claims for damages by the ordering party are not excluded with regard to

- damages resulting from injury to life, body or health caused by a negligent breach of duty on our part, or a negligent or intentional breach of duty on the part of our legal representatives or our vicarious agents, and
- other damages, based on an intentional or grossly negligent breach of duty on our part, or an intentional or grossly negligent breach of duty on the part of our legal representatives or our vicarious agents.

12. Advice, Plant Protection, Cultivation

12.1 Storage instructions, planting instructions, information on resistances, plant protection advice and other advice do not form part of purchase and delivery contracts. Unless they are expressly included in the contract, they merely represent non-binding information. They do not release the ordering party from their obligation to store and process the goods supplied by us in an appropriate and professional manner and to exercise the necessary care, especially when using plant protection agents, fertilizers and growth regulators. In particular, the possibility of a break-through of the stated resistances by the respective pest cannot be ruled out.

12.2 Insofar as we carry out plant protection consultations and provide information on resistances, the ordering party is obliged to first carry out a test of the recommended measures on a portion of the goods, if they decide to proceed, in accordance with the advice provided during the plant protection consultations. Only after successful testing may the general implementation of the measures take place. The test plants must be kept under identical conditions to the conditions under which the rest of the plants will be subjected after successful testing of the plant protection measures.

Subject to the restrictions in these contractual conditions, we shall only

be liable for plant protection advice provided by us if a proper test has been carried out in advance, and this can be proven by the ordering party. Section 12.2 shall apply accordingly.

12.3 With regard to plant protection, the ordering party must observe the statutory provisions, in particular the Plant Protection Act. Even if we provide advice on plant protection, this does not exempt the ordering party from taking responsibility for the observation of the statutory provisions.

12.4 The ordering party shall be responsible for the cultivation, in particular with regard to the selection and use of growth regulators and inhibitors, fertilizers and plant protection products. The ordering party must ensure that the products used are compatible with one another. We wish to point out that damage may occur if, for example, growth regulators and pesticides that are incompatible are used. We accept no liability for any damage resulting from cultivation errors. Section 11.3 shall apply accordingly.

12.5 Descriptions, illustrations, recommendations for cultivation and other information, in whatever form, either from us or from our vicarious agents, such as information on shelf life, sowing, planting and harvesting dates, or any information and notes on growing and cultivation conditions, are based on practical and experimental procedures, as accurately as possible. In all cases, we shall not be held for any damages resulting from the implementation or use of such descriptions, recommendations for cultivation or any other information provided. The ordering party bears the sole risk and responsibility as to whether the products or the recommended cultivation methods are suitable for the intended cultivation under local conditions. Product illustrations in catalogues, on the internet or in other publications show the variety type of the respective cultivar and not the cultivar as such. These illustrations do not represent a guarantee of the harvest results, neither explicitly nor implicitly.

13. Proprietary Rights, Licenses, Propagation

13.1 The use of intellectual property rights applied by us, including industrial property rights (plant variety protection and trademark protection), copyrights and image rights, is only permitted on the basis of a license agreement. Specifically, those goods that are subject to plant variety protection may only be propagated and multiplied on the basis of a license agreement. Any such license agreement shall be concluded separately, and there shall be no entitlement thereto; the license fees shall be determined in the license agreement.

13.2 In particular, variety protection is based on the respective legal provisions, especially the German Variety Protection Act (Sortenschutzgesetz). The supply of protected varieties by us shall be exclusively for the purpose of cultivation and subsequent sale; the ordering party shall not be authorised to produce propagating material or to export propagating material to any country that does not guarantee plant variety protection, except in cases where this is agreed separately, in writing.

13.3 If mutations/sports occur at the ordering party's premises, they shall inform us immediately, grant us access for inspection and verification and, without being requested to do so, they shall provide us with samples and cuttings of the mutations.

13.4 Should the ordering party be entitled to alleged rights from the identification of the mutation, which they wish to sell or have protected, they shall be obliged to inform us thereof in advance. In all cases, we reserve the right to assert our own rights to mutations.

13.5 In the event of a sale of any rights to mutations to which they may be entitled, the ordering party shall grant us an irrevocable right of first refusal; in the event of planned protection of such rights, they shall agree forthwith, to undertake to offer us the rights of assignment at a reasonable price and, in the event of non-transferability, for exclusive licensing.

13.6 If no agreement can be reached regarding an appropriate price, in the sense of the above clause, an assessor appointed by the Chamber of Agriculture with jurisdiction over us, shall determine an appropriate, binding price.

13.7 The customer shall irrevocably permit us or third parties commissioned by us to inspect his cultivation areas, after prior notification and scheduling, in order to verify compliance with the plant variety protection agreement.

13.8 Without our express written consent, the customer may not use any trademarks and symbols we use, to distinguish its products from those of any other legal entities or companies, and the ordering party is not permitted to use any trademarks and symbols that are not clearly distinguishable from ours. One exception to this is in the case of trading in our original packaging, bearing the trademarks and symbols affixed by us. Another exception applies in the event that the goods were delivered together with labels supplied by us. In this case, the trademarks used on the labels may only be used by attaching the labels supplied for the actual material supplied, in order to maintain the corporate design associated with them.

13.9 Please note that the GGN (GLOBAL GAP number) of Volmary GmbH may only be used for products produced by Volmary GmbH. Please ensure that the GGN is only used in accordance with GLOBAL GAP guidelines, and that it is not abused. Adopt the best possible practices for traceability and labelling of products, e.g. labelling of GAP-certified products at your premises, to exclude mix-ups.

14. Place of Fulfilment

14.1 The place of fulfilment for all services arising from contracts between ourselves and the ordering party shall be Münster in Westphalia (Germany).

15. Court of Jurisdiction

15.1 German law shall apply exclusively. The application of the UN Convention on Contracts for the International Sale of Goods and the applicability of any other conflicting provisions, which may lead to the applicability of other legal systems, including the so-called ROM I Regulation (EC 593/2008 of 17.06.2008), are expressly excluded.

15.2 For any disputes arising from contractual relationships between ourselves and the customer, the court of jurisdiction shall be Münster in Westphalia (Germany), unless a different exclusive court of jurisdiction is provided for by law.

16. Severability Clause

16.1 Should any of the clauses contained in these General Terms and Conditions, or any other clause contained in any contract concluded between ourselves and the customer, be or become invalid, either in their entirety or in part, the rest of the contract shall retain its validity. The parties undertake to replace the invalid clause with an agreement that comes as close as possible to the original intention of the invalid clause, in economic terms.

Volmary GmbH,

Head Office Münster, Regional Court Münster, Trade Reg. No. 12502

CEOs: Hubertus Volmary, Frank Hüdepohl

MULTIKRAFT® PLANT STRENGTHENING

The family-owned company Multikraft® is the leading developer and manufacturer of effective microorganisms. With the help of this technology, Multikraft® produces ecological products with sustainable benefits for humans, animals, and the environment. Multikraft® works with nature as a model, promotes its regeneration and strengthens natural processes. To advance these processes, we rely on the smallest organisms – microorganisms that underlie all life on earth. The use of

Multikraft® plant strengthening agents favours root formation and increases the resistance of plants to soil-borne diseases and pests. Furthermore, they boost germination, flowering, fruits, plant ripening and flower luminosity. This allows reducing or entirely doing away with pesticides.

The All-In-One products **MK Start**, **MK Gemüse** and **MK Blume** are particularly easy to use and prevent fungal diseases and pests. Stable growth and good branching is promoted by regular application via leaf spraying. Multikraft® products have been successfully deployed in ornamental plant and vegetable cultivation for years and offer an excellent opportunity to produce more environmentally friendly products. You can also do gardening with the power of nature.

Your Volmary® contact person will be happy to inform you about Multikraft®.

KEY

Symbol	Meaning	Symbol	Meaning	Symbol	Meaning
	Seed requirement / 1000 plants		Use of growth inhibitors		Available as seed only
	Seed requirement / 1000 pots		Natural flowering time (month)		Young plants available
	Sowing period (month)		Height (cm)		Not available in all countries
	Germination temperature (°C)		Flowering in the first year		More varieties online at www.volmary.com
	Germination time (days)		as needed		Variety / Series / Brand Volmary
	Cultivation time from sowing to young plant (weeks)		1 to 2 times		Can be produced in end-user brand concepts. Further information starting on p. 2 and at www.volmary.com
	TKW (thousand kernel weight)		Multiple		Hobby garden varieties
	Seed requirement (seeds / ha in millions)		Suitable for growing outside		Resistance
	Seed spacing (cm)		Cultivation in hanging baskets possible		Registered trademark
	Cultivation time for vegetables (weeks)		Pack		Protected variety
	Number of bulbs (per kg)		Planting density		Delivery under experimental seed regulations
	Bulb planting requirement (Sq.m)		Set cultivation possible		Fleuroselect Novelty
	Bulb planting period (month)		Drying possible		Fleuroselect gold medal
	Bulb planting distance (cm)		Seed raised		Fleurostar winner
	Cultivation time for bulbs (weeks)		Cutting raised		The varieties marked with DE-ÖKO-013 come from recognised ecological production, controlled according to the EU organic regulation.
	Number of bulbs / pot		Tissue culture		
	Plant spacing in cm		Grow from Bulb		
	Pot size (cm)		Vigorousness (1 = very compact to 5 = fast-growing)		
	Cultivation time from young plant (weeks)		Earliness (1 = very early to 5 = very late)		
	Cultivation temperature (°C)		Fragrant		
	Cropping/trimming		Insect-friendly (bees & butterflies)
